

UNIONS AFFIRM DRY LAW STAND

Adopt Resolutions for Beer and Wine

Asked to War on Foreign-Language Papers

Convention Frowns on Women Barbers

(BY A. P. NIGHT WIRE)

More whiskey glasses are now being made than in prohibition days, and they are not for ornaments," said William X. P. Clark of the Flint Glass Workers' Union, in a debate today at the convention of the American Federation of Labor, preceding action reaffirming the federation's former declaration for modification of the Volstead act. Clark said that when prohibition went into effect the manufacture of beer glasses dropped off, but that whiskey glass making increased by leaps and bounds.

After lengthy discussion the convention adopted by overwhelming vote a declaration ratifying the former attitude of the federation for such modification of the Volstead act as will have the effect of giving to the people beer and light wine "in lieu of the dead and poisonous things that now poison those who are foolish enough to consume it."

CONDUCTS FALSE IMPRESSION

The declaration was made "to correct an impression which has been created by the advocates of the Volstead act that former action of the federation was not a fair statement of the attitude of affiliated organized labor bodies."

"It is our belief," it continued, "that the efforts at enforcement of the Volstead act have produced results that are so far from being what was reasonably expected might follow the adoption of the Eighteenth Amendment that we feel warranted in saying the reasonable modification now asked for, and a rational enforcement of the Eighteenth Amendment will bring relief greatly sought by the people. The open saloon has been supplanted by the speakeasy and the licensed vendors of liquor we now have an unnumbered multitude of bootleggers who pass their vile and poisonous liquors in secrecy, to the great detriment of the health and morality of the people. This nefarious trade has brought with it a great host of so-called law-enforcement officers, many of whom have not hesitated to set aside or ignore all other laws in their zeal to enforce the one law in which they have interest."

APPROVES CAMPAIGN WORK

Continuation of the work of the federation's national nonpartisan political campaign committee was approved by the federation today and the rank and file of labor was called upon to make contributions to a fund for the purpose.

DISCUSSES IMMIGRATION

Discussed immigration he said: "Until every ex-service man and every member of the American Federation of Labor has a good job and a good home we should put up the bars, put on a big padlock and throw the key into the ocean and when we take down the bars we must insist that the newcomers be morally, physically, mentally clean."

Commendation to Gen. Frank T. Hines for his administration of the Veterans Bureau was unanimously given after he delivered an address.

The convention declared for fire prevention after hearing an address by Edward Grenfell, fire marshal of Portland.

WOMEN BARBERS

Women barbers were frowned upon and refused to place in organization labor by the convention in rejecting a resolution offered

THREATS FLY AT STOKES HEARING

Wife of Hotel Man Threatens Former Chauffeur

Tale of Intimacy is Quickly Retracted by Witness

Cries of "Liar" Are Hurdled Through Courtroom

(BY A. P. NIGHT WIRE)

NEW YORK, Oct. 10.—A courtroom crowd of the curious today watched Mrs. Helen Elwood Stokes meet with subdued shouts of "that's a lie," the eloped but almost instantly retracted insinuations of intimacy made by Elmer Henshaw, her former chauffeur, who took the stand as an unexpected star witness for W. W. D. Stokes, in the retrial of the wealthy hotel-owner's divorce suit. Mrs. Stokes, seated a few yards from her wife, and he covered his face with nervous hands.

Henshaw whose appearance today had been completely by surprise had testified to having driven Mrs. Stokes frequently to the apartment house at 13 East Thirty-fifth street, where Edgar T. Wallace, one of the co-respondents, lived.

SHAKEN WITH BOBS

Mrs. Stokes's mother, Mrs. A. S. Miller, of Denver, was seated a few feet from the witness, and jumped to her feet and advanced toward the witness stand, both hands threateningly in the air. "That's a lie! You're a dirty liar!" she shouted.

Mrs. Stokes burst his face in his hands. Henshaw told his arms and legs were shaking.

Several court attendants rushed to the side of Mrs. Miller, who still was screaming and shouting. "I never gave him a cent in my life," Mrs. Stokes shouted.

The crowd was visibly angered. One of the jurors, who had been elenching half rose as though ready to spring over the rail at the stand.

GERMAN MARKS FALL IN PANIC

provide money badly needed for the German government.

Before noon, the panic had extended from the bourse to the man in the street and the shops were besieged throughout the afternoon by purchasers who hoped to get rid of their worthless paper for something tangible before it lost all its value.

Ex-Governor to Receive Funeral Rites Tomorrow

By a "Times" Staff Correspondent

PASADENA, Oct. 10.—Funeral services over the body of ex-Gov. Henry Harrison Markham will be conducted at 2:30 o'clock Friday afternoon at the Neighborhood Church, with the Rev. John Stokely, former pastor of the church and a close friend of the deceased officiating. John F. Godfrey Post, G.A.R., will conduct the ritualistic service.

Interment will be at Mountain View Cemetery. The pallbearers will be officials from the Home for Disabled Veterans at Sattelle in honor of the ex-Governor, flags in the city will be flown at half-mast for three days.

MIDDLE WEST NEWS IN BRIEF

(EXCLUSIVE DISPATCH)

INDIANAPOLIS, Oct. 10.—Bert M. Price, 32 years of age, was drowned about a mile northeast of Millerstown, when he lost his balance and fell fifty feet from a steep bank into the water.

He came from La Fayette five years ago. Mr. Price was prominent in Masonic circles.

Funeral services for John Harcourt, president of the Broad Ripple State Bank and a lifelong resident of Washington township, who died Sunday at his home, ten miles northeast of the city, were conducted at his home yesterday afternoon.

The body of Orlando Serva, 6-year-old son of an Italian railway laborer, was recovered from a vat of boiling water on the property of the Broad Ripple Company yesterday. The boy had been missing from his home since Saturday, and it is believed that he fell into the vat while playing with a friend.

Word from Colorado Springs says daylight yesterday morning disclosed a snow-covered landscape with a frosty fall atmosphere, clear blue skies and sunshine, a distinct relief after a week of persistent rainfall which has muddled the roads and delayed construction work on any number of municipal projects. The automobile highway is blocked with snow above Glen Cove.

AKRON (O.). The location of the proposed new \$1,000,000 City Hall on the site of the old Central Fire station, next to the Central Police Station, was approved by the City Planning Commission yesterday.

Harvesting of sugar beets began in Hancock county, N. Y., yesterday. A record sized crop is in prospect, Supt. Waller of the Findlay plant of the Continental Sugar Company, announced.

DETROIT, Oct. 10.—Mrs. Mary C. Miller, 75 years of age, one of Kalamazoo's most widely known women, died at her home yesterday after a long illness. She was treasurer of the Ladies' Library Association for more than twenty years and was very active in the work of the State Federation of Women's Clubs.

NEEDLES MAN NAMED IN LIQUOR INDICTMENT

BILL FOLLOWS INQUIRY INTO BOOTLEG CONDITIONS AT DESERT CITY

(EXCLUSIVE DISPATCH)

SAN BERNARDINO, Oct. 10.—As a climax of the grand jury inquiry into conditions at Needles, where charges have been made that bootleggers were favored with protection, a secret indictment was returned yesterday charging that a man high up in the affairs of the desert city is named.

Adged Warner, fined bond at \$100. Conditions at Needles began following a hold-up of two county operatives by two armed men on the highway near the town of Needles. The highwaymen took bottles of liquor marked as evidence and poured their contents into the desert.

County officers raced into Needles that night and conducted an extensive raid. It was a defeat to the law, still being left in charge of city authorities.

For several weeks, the secret newspaper has been making attacks on Mayor C. E. Stauter and the editor of this newspaper was called before the district court yesterday.

Word from Atlantic says Edward S. Harris, pioneer cash-county farmer, was killed yesterday when a heavily loaded wagon was run by a runaway team passed over his chest.

OMAHA, Oct. 10.—Petition for a writ of mandamus forcing the city of Council Bluffs and the Union Pacific Railroad to open the Pettibone ditch for the drainage of the "matted area" of Broadway, between Thirtieth and Twentieth streets, was filed in District Court yesterday by owners of that vicinity.

The death of R. J. Barr, 73 years of age, for nearly forty years an educator and a member of the public schools, occurred at Fremont. He was on his way home by automobile from a summer's stay at his home in California.

Word from Callaway says corn is beginning to moulder because of the excess of moisture and a heavy frost. The husks are still tight and the moisture is held in the ear.

Miss Frances May, daughter of Mr. and Mrs. C. H. May, died at an Omaha hospital last night. She was prominent in Fremont socially, and one brother, Burt, survives her.

MILWAUKEE, Oct. 10.—The Rev. Thomas Pagan, for forty-three years pastor of Immaculate Conception parish, died at the parish residence yesterday. Father Pagan suffered a physical breakdown some time ago. He was widely known throughout the archdiocese.

Twenty-two outbreaks of hog cholera, widely scattered parts of the state, have been reported in almost every case, in the toll taken by this disease during the first twenty days of September, according to investigations by the State Department of Agriculture. The source of infection in ten cases has been definitely traced in the feeding of city garbage, or butcher meat scraps.

ST. LOUIS, Oct. 10.—Harold Hilgard Tittmann, 70 years old, former president of the Board of Education and retired manufacturer of forestry products, died yesterday at his residence of pneumonia, which he contracted from a cold. He had been ill ten days.

The Ku Klux Klan activities of the Rev. C. D. McChesney, pastor of the First Methodist Episcopal Church, South, will be investigated by a church jury within the next few days, according to action taken by the St. Louis conference of the church at St. Louis.

The Federal Land Bank of St. Louis yesterday threw open its new bank building for the first time. The new building has been received with much interest from the officials of the downtown banks, and the officers and the institution were recipients of many flowers.

BARONESS DIES

(BY CABLE AND ASSOCIATED PRESS)

PARIS, Oct. 10.—Baroness Romano Avenzo, wife of the Italian Ambassador to France, died suddenly here today. Before her husband's death, she had been in St. Louis. Baron Avenzo was Ambassador at Washington in 1919-1920.

FIRE SURROUNDS LUMBER JACKS

SPEEDER FIGURES TIME VALUABLE

Pays \$250 Fine Rather Than Go to Jail for Three Days

H. A. Dorit, who runs a restaurant at 1295 Moneta avenue, values his time at more than \$3.33 cents a day. He was convicted of speeding and cutting corners on the Ridge Route before Justice Wood, who gave him the alternative of a \$250 fine or three days in jail. He paid the fine.

About one hundred and fifty other speeders were arraigned before Justice Wood, who collected \$11,200 in fines but gave no jail sentences.

FILIPINOS TO CARRY FIGHT TO AMERICA

QUEZON TO TOUR COUNTRY TO BID FOR DEMOCRATIC INDEPENDENCE

(BY CABLE AND ASSOCIATED PRESS)

MANILA, Oct. 10.—Leaders in the fight for independence for the Philippines have decided to carry their campaign into the United States. It was announced today that Manuel Quezon, president of the Philippine Senate, and other Philippine leaders, who formerly held office in the Philippine House of Representatives or the Philippine Senate, are leaving for the United States during the first week in November.

The Philippine leaders, it was announced, will tour the United States, remaining there until after the 1934 election working for independence. They will also demand the recall of Gov. Gen. Leonard Wood and the appointment of a Filipino governor.

In political circles it is said the Philippines will endeavor to have the Democratic party include a Philippine independence plank in its platform. If this effort is successful it is said Quezon will take the stump for the Democrats in next year's campaign.

**POLITICS IS GIVEN BLAME
FOR IDLE SEA TONNAGE**
**Mayflower Descendant Angered at
Sight of Harbors Cluttered
Up With Rotting Ships**
BY RAYMOND G. CARROLL
(Copyright, 1923, Public Ledger.)
NEW YORK, Oct. 10.—These views from a Mayflower
descendant were growled out from the embrace of a huge
leather chair in a Fifth-avenue club: "Here are we, a maritime
nation. The continent of which we control the major share
was discovered by maritime enterprise. Maritime adventures
are our heritage. Our sailors were the first to search out
whales in the Arctic. Our clipper ships brought us the riches
of China and the Indies and were never surpassed by the ships
of any other people."
"Our Navy has never been
whipped. Yet every important
harbor and river-mouth on the At-
lantic Coast, and some on the
Pacific, are cluttered with our mer-
chant marine out of commission
and rotting at their moorings.
What is there about shipping that
we do not know? What is the rea-
son that this huge merchant ma-
rine is not upon the seas? Is it
lack of proper law? If it is lack of
law, for heaven's sake let's have
the proper law."
"If it is lack of brains at the
head of our Shipping Board let
us use the brains that we have
got, for we have proud families
who have built their reputation
and wealth out of the Seven Seas."
"We have the greatest industrial
organization in the world. We
have the greatest financial organi-
zation in the world. Those two
organizations should be combined
with the third, the organization
which directs our ocean-borne
commerce. These three organiza-
tions are capable of solving our
merchant-marine problem. Nothing
stands in the way but—dare I say
it?—politics."
Then he thumped his heavy cane
violently on the oak parquet floor
and snorted.

**HOUSE OF
WOMAN IS
CLOSED UP**
License is Revoked When
Police Find Liquor and
Strange Company There
BAKERSFIELD, Oct. 10.—De-
spite the plea of Mrs. Lucy Luk-
inib through her attorney, Allen B.
Campbell, the City Council has re-
voked her rooming-house license.
The house is at 121 K street. Ac-
cording to the police it has been
operated as a disorderly place.
Revocation of license was made on
request of the chief of police, fol-
lowing conviction of Mrs. Lukinib
for possessing intoxicating liquor.
She contended she had the liquor
for her 100-year-old mother.
Police officers testified that the
place has been visited several times
and each time liquor as well as
various women were found.
The police say Mrs. Lukinib told them
that the women were relatives, but
each time they visited the place
different women were there. On
the strength of the testimony of-
fered the license was revoked.

**Sun-Maid Gets
Huge Sum for
Raisin Growers**
FRESNO, Oct. 10.—Jay L. Reed,
controller of the Sun-Maid Raisin
Growers, today is signing bank-
ruptcy assignments in consummation
of \$2500 to \$25,000, aggregating
\$1,500,000.
This is the first withdrawal from
the banking syndicate that is
backing the raisin growers in the
sum of \$5,000,000. The money so
obtained is to be used in making
advances to growers on delivery of
the 1923 crop of raisins.
The money to be paid out will
be widespread over the San Joa-
quin Valley. It is expected that
the immediate result will be a
general liquidation of accounts and
stable increase in bank clear-
ings.

**SANTA ANAS URGE
HIGHWAY TO HARBOR**
SANTA ANA, Oct. 10.—Forecast-
ing a saving of more than an
hour's time for motorists in a
round trip to Los Angeles Harbor
and Long Beach from this city,
members of the Garden Grove Im-
provement Committee will hold a
meeting today with representatives
from the Santa Ana City Council
and S. H. Finley, County Super-
visor, relative to the construction
of the proposed direct highway
from this city to Long Beach.
According to H. A. Lake of Gar-
den Grove, one of the backers of
the project, the cost of the out-
road will be \$275,000, exclusive of
a \$50,000 bridge over the Santa
Ana River. Plans call for a high-
way eight inches thick and eight-
teen feet wide with two-foot
shoulders on each side.

**NEGRO GRINS AT
LONG SENTENCE**
SAN ANTONIO (Tex.) Oct. 10.—
Pleading guilty to charge after
charge of robbery until a total of
six separate offenses had been re-
gistered against him, and a sentence
of fifteen years entered for each
offense, Walter L. Bayles, alias
Black Hawk, negro highwayman
and store robber, appeared far less
interested in court proceedings
against him than were many of
the spectators.
Evidently it was an amusing ex-
perience to the young negro, for
almost throughout the entire rou-
tine of pleading, trial and sen-
tencing a broad smile sat upon his
features.
The negro pleaded guilty to every
charge in a clear voice and was
walking with firm, elastic step to
the clerk's desk of the Superior
Court to listen to the reading of
the indictments against him.
THINKS JOKE ON HIM
As the day wore on the jury,
with painful regularity, retired for
a few moments, only to return a
verdict of "guilty, and we recom-
mend that the court fix his sen-
tence at fifteen years." But as the
verdict was read his eyes never
failed to twinkle nor wrinkles of
mirth to appear on his face as the
verdict was read. Evidently he
agreed that the joke was on him.
This expression still sat on his
face when the court fixed his sen-
tence at fifteen years. But as the
end of a hard day's grind he five
charges against him still remained
to be heard and his total of ninety
years in prison was likely to in-
crease to 165 years. A new jury
will try the five remaining charges
if they ever are brought to trial.
Black Hawk has been a puzzle to
officers ever since the day of his
arrest, following a series of the
boldest hold-ups and robberies in
the history of Southwest
Texas. Found by the officers rid-
ing his bicycle away from a store
where he had exchanged revolver
shots with a San Antonio druggist,
without either man hitting the
other, a sack of change and other
fruits of his robbery were found
in his possession. From the first
the negro admitted his identity,
thus serving to free another black
who had been arrested as a suspect
and because of facial and body
resemblance to the real high-
wayman partially identified by some
of Black Hawk's victims.

ROBBED FOR EDUCATION
"I used to work regular when I
lived at Houston," said the negro
in a signed statement given the
officers following his verbal con-
fession. "Then I came to San
Antonio and decided to fit myself
for something higher than day la-
bor. I started to study two cor-
respondence school courses, one in
sign writing and another in elec-
trical engineering. I had to pay
of money to pay for my books
and I decided that, no matter
what might happen, I would not
give over my studies. Then I be-
gan to steal, and I found it so
easy to hold up men at the point
of a gun that I knew that my
plan was solved. Unless I was
caught I had found the way to
get money to finish my courses
and educate myself."
Black Hawk attributed his cap-
ture to his lack of nerve, and his
certainty that he had outwitted
the police and was in no danger of
being taken in as a suspect.
In his room were found books,
partly finished lessons and sign
painter's tools, and instruments for
mechanical drawing in connection
with his electrical engineering
course, which proved the truth of
his statement. The struggle for
educational advantages, denied him
in earlier life, had occasioned his
crimes.
In jail, where he has been al-
lowed to pursue his studies, the
negro has been unfurling cheer-
ful. It is the belief of the officers
that he looks upon his penitentiary
sentence as an opportunity to
complete his education, and with
exemplary conduct, to obtain his
degree and re-enter life well
equipped for a struggle to higher
planes than his limited attain-
ments ever had allowed him to oc-
cupy previous to his capture.

**VOTE OF CONFIDENCE
GIVEN SCHOOL HEAD**
SANTA ANA, Oct. 10.—The
Board of Education today passed
a vote of confidence in D. K. Ham-
mond, dean of the junior college
and principal of the high school,
in connection with charges made
by graduates that he had discredit-
ed against the University of
Southern California by sending
graduates to Berkeley without al-
ternative. Belief that the Uni-
versity of Southern California de-
manded fewer qualifications of entrants
than he thought essential, was the
point around which controversy
centered according to Hammond.

**VENTURA FARMERS
LIFTING MORTGAGES**
VENTURA, Oct. 10.—Records
in the office of County Recorder
Haydon show that three times as
many land owners here have lifted
the mortgages on their property in
the last six months as have put
mortgages on real estate. For a
great many years the number of
mortgages has about equalled the
number of releases. There have
been two and one-half times as
many papers filed in the Recorder's
office during the last twelve
months as in the preceding year.

The BIRKEL Company

An Embarrassment of Riches
VISITORS in our piano salons have often remarked
"with so many wonderful instruments here to-
gether, it is hard for me to make up my mind
just which one I want." We admit that it is difficult
to choose from our great showing of fine pianos—each has
its own particular merits, its own advantages, its own
superiority. That's just why we maintain such an immense
stock—to suit everyone. Everyone's requirements are
different and we try to please everyone by having a piano
for everyone.
Included in our great showing are—
Steinway Weber Kurtzmann
Steck Steinert Krakauer
Laffargue Haines & Co. Brinkerhoff

Kelly Spoiled Yankee Victory, Says McGraw

DUGAN PLAYED PERFECT GAME

Sensational Stop in Eighth Broke Giant Rally

Champions' Manager Declares Game Was Thriller

Is Proud of the Work of His Talented Players

BY JOHN J. MCGRAW
Manager of World's Champion Giants

(EXCLUSIVE DISPATCH)
YANKEE STADIUM, NEW YORK, Oct. 10.—The opening game between the Giants and Yankees was, I believe, the best I have ever seen. It had all the elements that go to make up a real, fighting high-tension ball game. It was no pitcher's battle that grows tiresome without hits or runs in a bunch. There was not a moment when the crowd was not on its toes in anticipation. This feeling was just as strong on the bench. Our players were up and down in their emotions just as were the fans.

I don't think I ever have seen or felt such a thrill on the bench as when Casey Stengel hit that home run in the ninth. Every body had been at high tension. The players were moving about in nervousness.

"Old Casey's liable to pull one," one of the youngsters had started to remark. I wonder if he had been right. Just at that moment Stengel cut into the ball. It was a real home run, one between the fielders and inside the ground all the way to the fence. If that home run had been a home run, I don't know it. I have never seen Stengel run so much like a sprinter. He had a rubber sponge inside his shoe beneath his heel to relieve the jar.

The four distinct features of the game that stand out—either of which would be marvelous in an ordinary game—were Kelly's play on Ruth's hard grounder in the seventh inning, Frisch's catch back of second, the pitching of both Ryan and Bush in the pinch and Joe Dugan's stop that broke up our hit and run play in the eighth.

Kelly's play was about the best I ever have seen. He not only made a marvelous stop of Ruth's hard hit but he hurried throw to the plate was perfect. Frisch's play was almost as remarkable. It also cut off the Yankee's smartness of Frisch's play was that while running backward for the pop-fly he wormed his body around so as to be set for the throw to the plate. A man must have a well-balanced brain and also a quick eye to figure out a difficult catch.

After seeing Dugan in action in a few minutes I was convinced that we had great third base man against us. Very few men were ever able to get a ball away quicker than he. In the eighth, we had Bancroft on first when I gave the hit and run sign to Groh. Groh hit the ball just as Bancroft started. It can be remembered when Bryan was running for President. Dugan sized it up instantly. He was not able to get Bancroft a second but a quick throw nailed Groh at first. That was a great play. Only a great ball player could have made it.

The play, though, that sunk the Yankees and probably turned the game our way was the exciting stop of second base in the last half of the eighth. We had been trying for that play several times. We came near catching Ruth on it at first base. But for Snyder's throwing on the wrong side we would have caught Stengel at first. With Pipp on second and none out it looked bad for us. Snyder looked around at the bench. The looks in the face of every player told him plainly to take a chance. It was the only play to make. No sign was necessary. Ryan pitched and sent just far enough and Pipp was caught flat-footed on Snyder's snap throw. Ward's hit, which followed, would have scored him. That play was the final one to save the game.

I am naturally proud of ball players who think and act on it that. I am not surprised, though, I have said frequently that we have a smart ball club. One that rises to occasions. They have done it so often that I have come to expect it.

This first game ought to convince the public of my sincerity in saying that I had no idea who would pitch. When we went out the field I was strongly inclined to pitch Neft. I had him warm up and had previously told him he was ready. I liked the way Watson warmed up and sent him in. I am rather of the opinion that the personnel of the pitchers in this series will not make a lot of difference. There are no outstanding ones on either side. We will simply have to take them as they come. It is more of a battle of hitting, fielding and base running. The first game was very much as I thought it would be. Four pitchers were used, two on each side.

I don't know who will be our pitcher for the second game. I'll have a lot of candidates out there and will make my selection just before the start. The Yankees, I imagine, will now try a left-hander—Pennock—against us. I might try a left-hander myself. I had rather not worry about it until tomorrow. Ruth is certainly improved player. He certainly did everything he had in his every effort. We pitched to him every time he came to bat. We used no particular system. He got curves, slow balls and fast balls, according to how it looked at the time. We will not consider him as different from any other good batter.

FIGURES ON FIRST GAME

Total attendance, 55,307.
Total receipts, \$181,912.
Players' shares, \$92,776.12.
Each club's share \$20,225.05.
Baseball commission, \$27,284.60.

ALTROCK WEEPS WITH RUPPERT

BY NICK ALTROCK
(Baseball's Funniest Comedian)

(EXCLUSIVE DISPATCH)

YANKEE STADIUM (N. Y.) Oct. 10.—After the game Col. Ruppert and I were in a corner drug store crying our eyes out. But he says to me: "Nick, tomorrow is another day but I hope it is not another day like this."

He asked me if I would tell Casey Stengel a joke, one of my best ones. His idea is that Casey would get so sick from this that he would be out of the series.

After that ninth-inning blow from old Casey's money but the Yanks not only were lashed to the mast, but they were smashed to the last.

It was a game, though, and if I predicted the Yanks would win yesterday I want to say the same today. They've got to do it or explain themselves to the expert writers. If we ever call a right one we are liable to get fired.

They said there were 50,000 fans at the opening. There must of been for I got three laughs when I did my stuff.

Ruth caught the first fly when Bancroft drove to right. The home crowd roared. But all his waiting and hitting went into the discard when unfortunate runner—relieved the side. Whitley was out taking second. It may have been a home run, but it was not common sense. Indeed the base-running in the fifth made Judge Landis think he was in a can-can.

My, what a yell when the big Babe made his triple in the fifth. As he told me before he went to bat, "I'm going inside his belt. And if I do I will travel." Well, both the Babe and the ball traveled, and if Mrs. Altrock could stretch my pay by much as the Babe stretched his hit we wouldn't have to economize.

Frisch is holding as usual. If the ladies in the South Sea Islands were as beautiful as Frisch's plays they'd all be in the Polynes.

Take that fellow Bush—yes, try to take him. He runned out a single in the seventh and then scored on Dugan's poke. The big Babe being up all the time, it was a real treat. Kelly made a marvelous stop of Babe's vicious grounder and stopped Dugan at the cash register.

With the teams going into the ninth a tie it began to get dark, but I prevailed on Judge Landis not to call off the game, even if the umpires had not brought their dark lanterns.

Just then Stengel whammed out his home run. It wasn't one of those new-fangled kind from among the trees, but it was inside the park. It was the blow that killed father-in-law.

The Yanks fought with their backs to the wall. Those who had wagers on the Yanks were not happy when they saw the blow that killed father-in-law.

Col. Ruppert says I'll be crying in some drug store with him for Watson's second game. I hope it is a regular drug store.

INCIDENTS OF OTHER WORLDS SERIES

HEINIE ZIM, CHASED OVER HOME PLATE HIT

WAMBOGANS UNASSISTED TRIPLES PLAY, 1920

RED FABER, STOLE THIRD WHEN IT WAS ALREADY OCCUPIED

TV COBB STOLE HOME

World's Series Incidents

Nearly as famous as the "Midnight Ride of Paul Revere" is the benighted dash of Heinie Zim in the 1917 world's series between the White Sox and the Giants. In the fourth inning of the game of October 15, Eddie Collins, who was on third, had taken a big lead off the bag, and there was another Sox runner on first. Felsch hit a bouncer. Benton, who chased Eddie back toward third, and then threw the ball to Zimmerman. Collins surprised everyone by turning and sprinting toward home, while the great Zim surprised even more by dashing madly along after him and chased him across the plate. Yes, the Sox won the game and the series, 4 to 2.

William Wamboogs executed a triple play in the fifth game of the Cleveland-Brooklyn series of 1920. There were runners on first and second in the fifth inning, when Mitchell hit a high liner to right center. Both runners started, thinking it was a safe single, but Wamby made a leaping catch, putting out Mitchell; touched second, retiring Kilduff; and then tagged Miller, who was nearing second base.

Three gents have stolen home in world's series games, among them being the Georgia Peach, who executed this tricky stunt on October 9, 1909, in the Tiger-Pirates series. The Yankees, however, stole home under the Giants' noses two days in succession, McNally being the hero on October 5, 1921, while Bobby Meusel repeated a day later, on October 6, 1921.

As for Red Faber—he once stole third when it was already occupied.

M'GRAW GOT LUCKY BREAKS

Huggins Says Kelly's Stunt Was Uncanny

Believes His Team Will Still Win Out

Declares Bush is Sure to Grab Next Tilt

BY MILLER J. HUGGINS,
Manager of the New York Yankees

(EXCLUSIVE DISPATCH)
YANKEE STADIUM, NEW YORK, Oct. 10.—Let me say to the fans that the Yankees have just begun to fight. We lost the first game of the series to the Giants on a combination of circumstances which are not likely to be duplicated again in any game of any series. I have no alibis, no excuses for my ball players. We simply wait for another day and another game. I am just as certain that the Yankees will win the series as I was before the first game was pitched. The temporary setback has only delayed the ultimate for another day. It has served also to fire our purpose to win.

We had the game won and we lost it. We had the Giants down with our hands on their throats, and we let them slip away. We threw away the game on the bases. Another play, a truly miraculous effort by George Kelly went against us, but that play is not likely to happen once more. It was a play not in the cards; it was a fluke play but a brilliant one.

TURNING POINT
The turning point of the game was when Pipp was caught off second base. Probably had Willie been sound in his legs he would have beaten that throw of Snyder's so far that it would not have been even seen. But he was not sound. I don't excuse him for not sliding—and he was out. Dick Nally says the play was clean and he probably is right. He was right there to decide. However Ward's single then rang out and where we should have had a man over the plate another on first and no one out we just had a runner on first. He never got around.

Some fans and critics are inclined to censure Witt for his playing down to second base in the fourth inning. I don't blame him and probably if Witt had made the bargain his enterprise would have been praised and lauded. That is the plan of the second game. Where that play went wrong was when Schang went too far on it and then gave up the ghost too readily. A second more delay and Witt would have made the bag with ease.

STARTS OUT FINE
Hoyt started in fine style, but something happened to him. I don't want to take anything away from anyone but I say that both Bancroft and Frisch had exceptional luck in getting their drives home. Probably had Willie Pipp been sound in his underpinnings he might have smothered those blows. Neither one was as hard hit as that of the other, but they got by our hit didn't.

Joe Bush pitched great ball. He used his head from start to finish and mixed a combination of fast balls and change of pace that was effective. He had a tough break with the count. The count was three and two and then Stengel tucked a fast ball for as clean a homer as ever was hit. We have no alibi to offer against that blow. It went in and that is the end of it. It was the end of the ball game while the Giants have held out a lot of tough luck in the series and the Yankees. He was beaten last year after two were out, and he was beaten two years after two were out.

Well, he won't lose the next time.

Herbert Pennock will pitch for us tomorrow. It may be that McGraw will send Arlie Neft to the ball for his club. He had him warming up for him today but decided to start Watson instead. We knocked Watson out of the box, just as we knocked Tony out of the box in 1921.

State Tennis Tourney Opens This Morning

(EXCLUSIVE DISPATCH)
SAN FRANCISCO, Oct. 10.—The twenty-second annual California state tennis championship tournament will start tomorrow morning at 9 o'clock with a record figure of 384 entries in ten events, almost a hundred more than were entered in the Pacific Coast event.

Because of the large number of matches involved, the committee has scheduled play for the first two days and up to 11 o'clock on Sunday morning. No extensions of time can be granted beyond the scheduled hour, and defaults will be called promptly.

Manuel Alonso, the Spanish champion, and Vincent Richards, third ranking player in the country, will play their first matches Saturday afternoon at 3:30. Alonso will meet Henry Grattan and Richards will meet K. Harkura, the first rounds. Helen Wills, national champion, will go on the court Friday at 10 against Mrs. Marjorie Wale Kruse.

Williams College boasts a soccer football squad of six players.

Cubs Wallop White Sox in Opening Game of Chicago Series

ALEXANDER MASTER OF AMERICAN LEAGUE CLUB Robertson of No-Hit, No-Run Fame Fails to Stop Wrigley's Men; Kansas City Nine Wins

(EXCLUSIVE DISPATCH)
CHICAGO, Oct. 10.—Manager Killefer's battling young-ster today defeated the White Sox in the opening game of the series at the Cubs Park by a score of 8 to 4. Grover Cleveland Alexander, veteran of the North Side pitching staff, pitched his team to victory, allowing eleven hits, one of them a home run by McClellan and another a homer by Eddie Collins.

Robertson of no-hit, no-run fame, who was the star of the series, but the Cubs' pitcher failed to stop the Sox from scoring runs. Alexander pitched a fairly good game, but he was unable to keep the Sox from scoring runs. The Sox scored four runs in the first inning, and the Cubs scored two runs in the second inning. The Sox scored three runs in the third inning, and the Cubs scored one run in the fourth inning. The Sox scored two runs in the fifth inning, and the Cubs scored one run in the sixth inning. The Sox scored one run in the seventh inning, and the Cubs scored one run in the eighth inning. The Sox scored one run in the ninth inning, and the Cubs scored one run in the tenth inning.

Robertson pitched a fairly good game, but he was unable to keep the Sox from scoring runs. Alexander pitched a fairly good game, but he was unable to keep the Sox from scoring runs. Robertson pitched a fairly good game, but he was unable to keep the Sox from scoring runs. Alexander pitched a fairly good game, but he was unable to keep the Sox from scoring runs.

ANGELS M'GRAW TIGERS

Krug's Lads Swing Jinx and Mental Stuff on Eddie Maier's Worries, Copping 5 to 4

(BY ED O'MALLEY)
If imitation is the sincerest flattery, Johnny McGraw is the proudest mortal this side of Mars today. He won the opening game of the world's series, 5 to 4, yesterday just a little time prior to the Angels' victory over the Bengals, 5 to 4, in the world's series for the subterranean championship.

Therefore, let it be known, dear old local fans, that we had a little world's series of our own at Washington Park. The Tigers looked foredoomed the minute they felt the sed at the old grounds. Rod Murphy tossed over and whipsawed to us. "How can we win with every one of those Angels looking like a Johnny McGraw?" Rod is nothing if not precocious, therefore the Indian sign on the Coast kept in touch with the Indian sign in McGrawville.

Frank Shellenback smoked 'em over for Bill Maier, but Frank was not so effective as usual. Opposed to him was George Lyons, who also had a sort of carrot day. A southpaw left named Cannon mounted the trap in the eighth inning for Vernon and showed a lot of stuff.

RED DOES IT
The Seraphs looked as if they were going to make a runaway race of it in the second frame. (Continued on Page 2, Column 4)

Vernon, temporarily shaking off the Angels' jinx, used up matters in the next frame. After Shellenback had proved an easy out, Chadbourne walked and came home on Gillespie's slashing double to the Cherry Blossom sign. Murphy drilled a single to center, shooting Gillespie home.

The Tigers grabbed the lead in the fourth canto of follow. Warner hit by a pitched ball. Shellenback fled to McCabe. High arched a single to left. Chadbourne smashed to Golvin, who tossed to Lyons, but the big-circus prospect batter-handled the pill and Slade scored.

Eddie Maier's worries added another tally to their groan. In the fifth, Murphy starting off with a double to far right which blossomed into a triple when Babe Twombly got to fusing with the old apple. Hand-soldier's double, and a single over Red Smith and Rod Murphy centered across the rubber.

The Angels came back with one in their half of the inning on McCabe's double; Twombly almost homered on a hit to the right field. Chadbourne's double, and a single over Red Smith and Rod Murphy centered across the rubber.

The Angels came back with one in their half of the inning on McCabe's double; Twombly almost homered on a hit to the right field. Chadbourne's double, and a single over Red Smith and Rod Murphy centered across the rubber.

FULLERTON AND POET PREPS MIX

Don Douglas's Whittier Team Tackles Strong Fullerton Eleven Tomorrow

(EXCLUSIVE DISPATCH)
WHITTIER, Oct. 10.—The Tri-County Football League composed of high-school teams from Los Angeles, Orange and San Diego counties, will be officially opened Friday afternoon when Don Douglas's Poet preps meet the fast Fullerton aggregation on the new football field here.

In the preseason practice games, the local team has been going good, and aside from a few minor injuries the men are in fairly early season form. Douglas is fortunate in having eight letter men from last year as a nucleus for his training machine. His probable line-up will be Tweedy, left end; Partridge, left tackle; Cole, center; Horton, center; Johnson, right guard; Tedrick, right tackle; Blackman, right end; and Barnes at quarterback.

Barnes at quarterback has experience as substitute quarterback last year. The halves will be Kimmel and Bigbee. Pendleton, captain, is fullback.

Not much is known concerning Fullerton, except that it has always been one of the best in the league. The team is from Fullerton and Fullerton is from Fullerton. The team is from Fullerton and Fullerton is from Fullerton.

The local team is light, and according to Douglas will not average more than 150 pounds. From tackle to fullback they will average around 150 pounds.

Cruickshank Leads Field in Open Event
(BY A. K. NIGHT WIRE)
MEMPHIS (Tenn.) Oct. 10.—Bob Cruickshank, Westfield, N. J., professional, driving straight and long off the tee and approaching with uncanny deadliness, topped a field of more than 100 entrants in the first round of the Colonial Country Club course and within two strokes of the course record.

Wilfred Reid of Detroit was runner-up to Cruickshank for low score in the opening day with 71 par golf.

Leo Deigel, Washington, D. C., was third, and Tulsa, Okla., tied for third place with 72 strokes.

Bay League Footballers Off Tomorrow
The Bay League, which this year boasts of two of the strongest prep teams in Southern California, goes into action tomorrow with no less than four games scheduled. Gardena meets Santa Monica on the beach field, Huntington Park and Venice hook up at Venice and Redondo will attempt to sink Compton in their own back yard.

Gardena, coached by Tiny Leonard, last year was defeated by Santa Monica for the championship of Southern California. They also turned out very creditable teams at Pomona not so long ago and is out to keep up its record this season.

Santa Monica had a good squad last year and all reports from the beach towns are to the effect that the Saints are as strong as ever. Both teams are strong favorites to cop their opening games.

University of Pennsylvania football team will have its last opportunity to beat a Pittsburg eleven coached by "Pop" Warner November 3, at Philadelphia. Pennsylvania has never accomplished the feat.

Women Are to Vie for Honor in Olympiad

(BY CABLE-EXCLUSIVE DISPATCH)
PARIS, Oct. 10.—No age limit and the admission of women are two unusual clauses in the official rules for the coming winter Olympic games at Chamonix.

The French Olympic games committee has organized a program of winter sports to be held at Chamonix and Mont Blanc in January, 1924. While they do not include official games, the winter events are to be a part of the Olympic competition as far as the public is concerned.

Under the Olympic committee's direction a rink, of 1600 feet in circumference, is being built at Chamonix. New ski tracks also are being built for the games.

The American committee has not yet been notified of the games.

GRANDETTA-MARKS AT NEWSIES TONIGHT
At the big opening of the Newsboys' Club gymnasium tonight, 108 North Spring street, the big feature will be a boxing program of seven events. The real scrap of the evening will bring together Frankie Grandetta and Benny Marks, two of the best boys of their weight in America. These 112-pounders will box four rounds. They recently fought a draw at Hollywood, the set-to being one of the fastest and most thrilling ever seen there.

Manager Carlos Curtis has lined up seven bouts. The bouts include the following: Joe Bonds vs. Manuel Kaplan, heavyweights; battle royal; Young Rocky Kansas vs. Young Benny Leonard; Young Joe Rivers vs. Young Battling Nelson; Young Abe Attel vs. Young Johnny Dundee. Included among the referees will be C. C. Julian, Jimmy Austin, Joe Rivers and Jack Loyde.

INTERCLUB BILLIARD TOURNAMENT PLANNED
George Adair of Los Angeles Lodge, No. 99, B.P.O.E., is arranging an interclub 15.2 ball-line billiard tournament to be staged here in the near future. The Jonathan and Los Angeles Athletic clubs have been invited to pit their most skillful cue manipulators against those of the local antlered herd.

TELLS RIFT IN HENEY FAMILY

Wife of Attorney Describes Clash With Brother

Nephews Accused of Theft of Wine They Sold

Refusal to Sign Mortgage or Contract Caused Break

[EXCLUSIVE DISPATCH] SAN JOSE, Oct. 10.—How Richard Henevy refused to sign an agreement of sale for \$50,000 covering the Chateau Riveaux vineyard or execute a crop mortgage to his brother, Francis J. Henevy, Los Angeles attorney, now seeking to oust the former's widow, Mrs. Mary A. Henevy, and her son Edwin from the property, was told at the trial here today by C. A. Dagnan, formerly a law clerk in the plaintiff's office.

Dagnan, who is now an attorney at Fresno, testified for the plaintiff that in 1914 Francis J. Henevy gave him the instruments and requested him to take them to Richard Henevy at the vineyard for signing. When he presented them, Richard Henevy refused to sign them. The witness said, declaring that Francis J. Henevy was trying to run the place, and that the mortgage would prevent a sale of the crop.

HENEY ANGRY

Richard Henevy was very indignant, Dagnan testified, over a previous attempt by Mrs. Van Winkle, now Mrs. Francis J. Henevy, to get him to sign the papers. The witness quoted Richard Henevy as saying that "the only time they would get him off his property was when he attended his own funeral."

Mrs. Edna Henevy, wife of the plaintiff, was called as a witness by her husband and testified that before her marriage to the plaintiff her name was Mrs. Van Winkle and that she was manager of Francis J. Henevy's unsuccessful campaign for United States senator in 1914. The witness said that she was the one who took the agreement of sale and crop mortgage to Richard Henevy for signing, as testified to by Dagnan. Richard Henevy became angry, she said, when she asked him to sign them and declared that he would never sign another paper for Francis J. Henevy. When the witness told him that the plaintiff would not make any more advances for operating the vineyard if he did not execute the instruments, she said he still refused to sign.

FLAME SEALING

On another occasion, she said that she accompanied the plaintiff to the vineyard and that he became very angry when he found Seth and Edwin, sons of the defendant Mary A. Henevy, in the act of sealing fifty gallons of wine that had been sold. He told them he had a mortgage on the wine, she said, and accused them of "plain stealing" when they said it. The witness related the dispute which followed between Seth Henevy, her husband, and herself on August 4, last year, five days before the foreclosure sale which was testified to by Seth Henevy. At that time her husband told Seth, according to her version of the conversation, that the only way he could protect his interest in the property was to comply with the conditions imposed by Rudolph Spreckels, San Francisco banker, who would make the loan providing the plaintiff took possession of the property.

Seth Henevy then made a plea that Edwin Henevy be retained as manager of the vineyard on a salary, according to the witness, and that his mother be permitted to remain in her home on the property. The plaintiff replied that he "wouldn't leave you and Ed manage anything," the witness said.

TUCSON POPULATION CONTINUES TO GROW

[EXCLUSIVE DISPATCH] TUCSON (Ariz.) Oct. 10.—That Tucson has had a 50 per cent increase in population in three years is declared by Supt. C. E. Rose of the city schools. In 1920, when the census gave the city 20,342 inhabitants, the school enrollment was 4100 children. The present enrollment of \$300 indicates, that the city has more than 30,000 population. There has been a 50 per cent increase in the same period in the number of gas and electric light meters installed.

NEW METHOD HEALS RUPTURE

Kansas City Center's Discovery Makes Truss or Operation Unnecessary

Kansas City, Mo.—(Special).—A new discovery which, experts agree, has no equal for curative effects in all rupture cases is the latest accomplishment of Dr. Andrews, the well known hernia specialist of this city. The extraordinary success of this new method proves that it holds and heals a rupture. It weighs only a few ounces. It has enabled hundreds of persons to throw away trusses and declare their rupture absolutely healed. Many of these had serious double ruptures, from which they had suffered for years. It is Dr. Andrews' ambition to have every ruptured person enjoy a quick relief, comfort and health power of his discovery, and he will find it on free trial to any reader of The Times who writes him at his office, 1211 Kosh Blvd., Kansas City, Mo. He wants one person in each neighborhood to whom he can refer. If you wish to be rid of rupture for good, without an operation, take advantage of the doctor's free offer. Write him today.—Advertisement.

SMOKE IN COURT COSTS LIBERTY

Philadelphia Man Jailed for Pushing on Cigarette Before Judge

[EXCLUSIVE DISPATCH] NEW YORK, Oct. 10.—"Take that cigarette out of your mouth," ordered Court Attendant John Blaser in the Jamaica Magistrate's Court.

"I won't," responded Rudolph Sheeler, a baker, "I'm here to see Judge Miller."

"I can smoke in Philadelphia courts, so I don't see why I can't smoke here."

The case was put up to Judge Miller.

"I'll cost you \$5 to learn that you can't smoke in my court, no matter what you do in Philadelphia," said the judge.

"I won't pay it," said Sheeler, smoking.

"You will, five days," said the judge.

Tagged Autoists Must Appear or Face Jail Terms

A warning to traffic law violators who believe they can evade punishment by failing to appear in court or depositing bail was given yesterday by Police Judge Crawford. He declared that every traffic violator who failed to appear in court in answer to a tag would receive a straight jail sentence without the alternative of a fine.

Judge Crawford issued the warning before a session of his court in which he was supposed to appear in his court yesterday failed to do so.

MASONS MAY ERECT UNIVERSITY BUILDING

ILLINOIS GRAND LODGE TO CONSIDER FOUNDATION PROJECT

[EXCLUSIVE DISPATCH] CHICAGO, Oct. 10.—Proposals to erect a \$400,000 foundation on the University of Illinois campus are to be placed before the Illinois Grand Lodge of Masons at its meeting in Chicago next month. A large dormitory is the central feature of the project, which has been launched by the Square and Compass Club of the university.

In a large clubhouse, proposed as part of the foundation, all organizations sponsored by the Masonic lodge may unite in their activities. There are 200 members of the faculty and student body eligible to the benefits of the foundation, approval of which has been expressed by David Kinley, president of the university. The plan is to be made to the 250,000 Masons of Illinois for support.

RATES IN ARIZONA WILL BE STUDIED

[EXCLUSIVE DISPATCH] PHOENIX, Oct. 10.—An Interstate Commerce Commission hearing will be conducted here November 5, for consideration of class freight rates in Arizona. The Arizona Commission, which has been set up by the Interstate Commerce Commission, has been set up by the Interstate Commerce Commission. The Arizona Commission, which has been set up by the Interstate Commerce Commission, has been set up by the Interstate Commerce Commission.

Bones of Men of Prehistoric Age Unearthed

[BY CABLE—EXCLUSIVE DISPATCH] (Overland, 1923, New York Tribune.) PARIS, Oct. 10.—Further excavations at Soltau, near Meissen, where scientists already have found thousands of bones of prehistoric horses and buffaloes, have just brought to light skeletons of three Cro-Magnon men.

The skeletons, which are intact, give a perfect illustration of the physical characteristics of man 15,000 years ago. They are of men between 30 and 40 years of age and of great stature. The skull in each case is well developed but not of great length. The nose is long and the jaw high.

The discovery, which was made by Dr. Arézin, is declared by paleontologists here as one of the greatest in their branch of science. Centrifugal pumps. What riding he has been doing has been a matter of the most recent. A silver Chaps have given way to coveralls and \$100 saddles on \$100 ponies are as rare as 14-year-old girls who have never been kissed.

Yes, all the romance has been gone. The romance of the past has been replaced by the romance of the present. The romance of the past has been replaced by the romance of the present.

BEE BRINGS DEATH IN AUTO ACCIDENT

WOMAN LOSES CONTROL OF CAR IN ATTEMPT TO AVOID STING

[EXCLUSIVE DISPATCH] RICHMOND (Ind.) Oct. 10.—Mrs. Mildred Louck of Richmond lost her life yesterday when her car, near Hope, O. The automobile in which she was riding ran into a ditch and overturned. Mrs. Louck, her husband, and Mrs. Alma Hauger and Mrs. O. H. Glipse, Indianapolis, who also were in the car, were not injured.

Mrs. Louck was sitting with Mrs. Glipse in the rear seat. A bee flew into the car and settled on Mrs. Louck's cheek. In attempting to brush it from her face Mrs. Louck struck the steering wheel and the car swerved and ran into the ditch and turned over.

Mrs. Louck's turtleneck vest was severed by a piece of glass from the windshield. The body was brought to Richmond.

ELMER DOWDY'S BAIL DECLARED FORFEITED

Bail to the extent of \$10,000 in the case of Elmer Dowdy was declared forfeited by Justice Wood yesterday when the defendant failed to appear for his preliminary hearing. He is charged with conspiracy in the holdup of David Antik, a collector of the Sunset Drug Company, who was robbed of \$30,000 some time ago. A bench warrant has been issued for Dowdy and at the request of Deputy Atty. Gen. John W. Blair, who was found guilty of conspiracy in the holdup of David Antik, is serving a prison sentence.

MAVIS TALCUM

—A Vivaudou Product

And all the world knows Vivaudou as a name associated with toilet articles of quality. Vivaudou's Mavis Talcum is easily the favorite of the line.

You'll like the infinite softness of this popular powder—and, of course, you'll like the odor. Mothers favor it for baby's tender skin—and they like it for themselves. In fact, it's a family talcum.

Many thousands of men have chosen Vivaudou's Mavis Talcum for after shaving. They like it on general principles, but mostly because it does away with the after-shave shine without that undesired powdered effect.

Vivaudou's Mavis Talcum is easily recognized because it is put up in tall red cans. The two popular sizes—small and medium—sell in The Owl Drug Stores at 25c and 50c.

JURY OUT IN DILLON TRIAL

Defense Submits Its Case Without Argument

Proves Surprise in Fresno Craft Prosecution

Judge's Charge Gives Hope for Finance Chief

(EXCLUSIVE DISPATCH)

FRESNO, Oct. 10.—Fate of Charles Dillon, City Commissioner of Finance, tonight is in the hands of a jury in Superior Judge Woolsey's court. Dillon for a week and a half has been on trial on thirteen counts of an indictment charging falsification of public records.

The case went to the jury at 1:30 o'clock this afternoon after the defense in dramatic fashion waived its right to argument. Judge Woolsey instructed the jury that Harry Erickson, who was city license collector and who was jointly indicted with Dillon, was an accomplice, and that his testimony was to be viewed with distrust and was not to be relied upon to convict his former chief.

ERICKSON CONFESSED Erickson on the stand confessed to a long series of embezzlements and falsifications in connection with license payments and said that Dillon engineered and profited from the transactions. The license collector was granted immunity before testifying.

According to the court's instructions a verdict of guilty or not guilty can be returned for each of the thirteen counts against Dillon. Failure of the defense to argue the case was the greatest surprise of the most sensational trial Fresno has seen in years.

Dist. Atty. George R. Lovejoy completed his argument at noon. Attorney W. M. Conley was prepared to deliver the opening argument for the defense at 2 o'clock, but Earl E. Lindley, another defense attorney, leaped from his seat and cried:

"We submit the case."

HAD TO REPEAT OFFER The surprise created was so great that he was obliged to repeat his offer of submission three times before it was accepted. Lovejoy argued that to find Dillon innocent, the jury would have to take the word of the defendant against that of C. E. Oyster, accountant, of an assistant of Oyster, of Los Angeles, handwriting expert, and others. He sketched only a high spot of the evidence.

Dillon and Erickson also were indicted on thirteen counts charging embezzlement of public money, covering the same transactions involved in the present trial. The charge as it relates to Dillon was dismissed when he was tried on the embezzlement accusation.

Former Member of "Millionaire Council" Buried

(EXCLUSIVE DISPATCH)

SOUTH PASADENA, Oct. 10.—A funeral today of Warren Carter, member of the famous "millionaire council" during the stormy period of South Pasadena's history, was attended by Mr. Carter, a multi-millionaire, was a connection with a famous political fight during the period when South Pasadena was governed by a council of five members, all of whom were millionaires.

Mr. Carter moved to a ranch in Kern county after the defeat of the "millionaire council" in 1925. He would have nothing to do with South Pasadena until some time ago when he again moved to his residence. He was survived by a daughter, Miss Patricia Carter, 11½ years old. His wife died several years ago.

WELD WHEN AUTOIST TRAILER ON ROAD

(EXCLUSIVE DISPATCH)

SANTA ANA, Oct. 10.—O. V. Carter of Long Beach is being held in the County Jail here on a charge of driving a motor vehicle without a license. Carter, who had left a trailer on the Huntington Beach highway, was arrested in the darkness, suffering from a severe headache, which it is feared was the result of a more serious charge on the outcome of Carter's case.

ODD FELLOWS SEE

hundreds See State's Crack Drill Encampment at Port

(EXCLUSIVE DISPATCH)

PORTLAND, Oct. 10.—Surrounded by hundreds of spectators, elevated on a platform, the members of the Odd Fellows State convention of the State of Oregon, here representing cities in all parts of the State, this afternoon were divided into two classes, class A being made up of men and three officers, class B of twelve men.

Winners of Class A received a cash prize of \$100 and Class B winners will be given \$75, respectively, while the grand officers, white and gold, are \$75 and \$50.

Winners of the day evened out the balance of the year. The grand officers, white and gold, are \$75 and \$50.

DAILY MARKET LETTER OF THE NEW YORK COMMERCIAL

NEW YORK, Oct. 10.—Today was a legal holiday but as far as the New York market was concerned it was a busy day. The market was quiet but there was a general feeling of confidence. The market was quiet but there was a general feeling of confidence. The market was quiet but there was a general feeling of confidence.

COFFEE
Coffee futures on call prices were lower, December sold at 8.85 cents; March, 8.25 to 8.30; July, 7.80 to 7.85. Sales were about 8000 bags including switches from July to September at a net difference of 5 points.

TEA
Ceylon tea has been advanced to the extent of 1.2 cents a pound, according to cables from London. While this had a stimulating influence on the price of Ceylon tea in general, there were few actual changes of any importance in any direction.

RICE
The tone of the rice market is firm, despite a scarcity of offerings from various directions. Sellers are looking for a continued quiet market for the remainder of the week.

DRIED FRUITS
Wood and Stevens, Inc., local representative of the California Prune and Apricot Growers Association, today made public a wire from A. M. Mortensen, general manager of the association, saying that there has been a great deal of damage to new crop prunes by recent rains.

BUTTER
The butter market showed increased activity at the opening, and with shortage of the table grades sellers were able to advance prices 1 cent a pound. Call sales were only sixty tubs extra at 46 1/2 cents, but private sales were made at the same rate.

EGGS
Jobbers wanting fine quality eggs for cartons were generous in their bids, and paid full prices for any quantity of new-laid quality. Coast whites of new-laid quality were firm.

FRUITS
There was an active demand for Alameda grapes at the rate of 4000 barrels at 85 cents, the first crop of the season. By comparison with the first sales last year the prices were about \$1 a barrel higher. Rancho Santa Ana grapes, extra choice, \$0.75 to \$0.80; extra choice, \$0.75 to \$0.80; extra choice, \$0.75 to \$0.80.

BEANS
New crop beans have commenced to arrive in a small way and sales are reported at 3 1/2 to 4 cents. The quality appears to be of the best, and certain buyers have been interested. Old crop California beans are being sold at 3 1/2 to 4 cents, and certain buyers have been interested. Old crop California beans are being sold at 3 1/2 to 4 cents, and certain buyers have been interested.

SUGAR
Raw sugar prices opened at a new high of 2 to 4 points. A few orders put on December from the commission house sent that month up to 4 1/2 around the noon hour, when March ended around 3 1/2 and May at 4 1/2. There was no material change in asking prices for raw sugar, and in the absence of confirmed sales to operators, the market was exceptionally light.

COPPER
Copper prices here declined to 12 1/2 cents a pound for electrolytic delivered, the lowest price that copper had touched since April, 1921. It compares with an average for the past twenty years of 17 1/2 cents a pound. London cables electrolytic spot are declining 1 1/2 to 1 3/4 cents and futures 10 to 15 1/2 to 16 1/2 for spot and 16 1/2 to 17 1/2 for futures.

LEAD
The lead market is still quoted at 20 1/2 to 21 1/2.

THE FUTURE OF BONDS, TRADE AND STOCKS

EVERY BUSINESS MAN, banker and investor is vitally interested in the future outlook for business and the investment markets.

In July, 1921 we issued a Special Letter to our subscribers, carefully forecasting the broad general movements and trends for the next few years.

These forecasts have proven so accurate, that we have reprinted this letter for the benefit of our clients, with a supplementary analysis amplifying our views in the light of recent developments.

"Glimpsing into the future" through a careful study and analysis of current fundamental conditions is a function which our Service has performed with much success and profit to our clients during the past fifteen years.

A limited number of this Special Letter is still available to those making the first inquiries. Ask for circular number—217.

at 7 cents. New York, and 6 1/2 cents a pound. St. Louis. London spot declined 3/4 to 126 1/2, but futures unchanged at 125 1/2 to 126.

ZINC
Zinc is easy at 6 1/2 cents a pound. St. Louis. London spot dropped 5/4 to 125 1/2 and futures 2 1/2 to 125 1/2.

TIN
Practically all deliveries and positions of Straits and Straits shipment tin closed at 41 cents. London cables reported standard as declining 12-13 to 2205 1/2 for spot and 2190 1/2 for futures, while Straits broke 14 1/2, closing at 1204 1/2. The Far Eastern market lost 10a Straits in Singapore, closing at 1203 c.i.f. London.

PETROLEUM
Following the reductions in California crude oil, the most thing on the petroleum program is a reduction in midcontinent grades, according to opinion expressed in local trade circles. At its present level, California crude can be sold down at Atlantic coast refineries for considerably less than it costs to bring midcontinent oil here at present prices. It is expected that the latest cuts will stimulate the eastern refinery demand for California petroleum. Unless there is a jump for tanker tonnage in the next few days, the Pacific Coast product to the Atlantic and Gulf seaboard, the reduction will give the latter a big advantage over the former.

BONDS
The quick subscription of several major bond issues brought out this week has been done somewhat at the expense of the market, which has been inclined to be dull and without much support from investors. Professionals have operated in rail and foreign bonds, but industrial bonds and the Liberty have suffered from lack of attention. Making in call money to the 4 1/2 percent level again enabled the list to finish fairly steady, though several issues were active in the market.

LOS ANGELES EXCHANGE

Oil stocks broke under the selling pressure resulting from the cut in California crude oil prices, and losses ranging from small fractions to over 5 points were diffused throughout the list in yesterday's market on the Los Angeles Stock Exchange.

United States Royalties fell farther than any of the leading stocks, finishing at 45 after opening at 46 1/2, 1 cent below the final price of the previous session. General Petroleum slumped to 32, and United Oil lost 1 1/4 to 31 1/4. General Petroleum was unchanged at 30 3/4, while Union of California led the higher-priced stocks in the downward course, losing 2 1/2 points at 104 1/2. Shell Union dropped 1 1/4 to 13 1/4.

Black Range snapped back just as quickly as it climbed the previous day on rumors of an ore strike. The stock started at 12 cents, and finished at 13, a loss of 1 cent. United Eastern advanced 1 cent to 1 1/2. Tom Reed was quiet at 53 cents.

Los Angeles investment was the active security in the industrial list, selling off 1 cent to 1 1/2. Closing at 9 1/4, General Petroleum led the 12 1/2 point gain in the series C 6s of 1950 declined to 97 1/2. The same loss was recorded in the series B 6s of 1951 sold up to 104 1/2. Following are the closing quotations and sales:

OIL NEWS

BY HOWARD C. KEGLEY

Representative of the Gibson-Zahnisen Oil Corporation of New York are in the city to inspect the fields of Southern California, and to get into other matters affecting the petroleum industry on the Pacific Coast. It was learned yesterday, The Gibson-Zahnisen people are heavily interested in the Oklahoma and Mexican industries.

Alexander No. 8
The Alexander No. 8 well of the Union Oil Company in the Santa Fe Springs field came in Tuesday at 4555 feet, while the crew was still at work on it, officials of the company report. It is said to be making 800 barrels of 35-degree gravity oil. The company has decided not to drill further, but to put the well on production at its present depth.

On California Oils

A paper on the characteristics of oils has just been issued by the Department of the Interior through the Bureau of Mines, and is the third of a series of reports in a survey of petroleum products manufactured on the Pacific Coast from California crude oils.

Where Are the Dependable Profits in Oil?

Every conservative investor who desires to share in the substantial profits in oil will be interested in our analysis—based on a recent Federal Trade Commission report—discussing clearly the most dependable source of this leading California industry.

Name

Address

characteristics from the petroleum produced in the other parts of the United States and the declaration has been made that some of the present Federal specifications for petroleum products tend to discriminate against California products.

The first report of the series gives the physical and chemical properties of the samples of gasoline and mineral spirits. A second report gives the physical and chemical properties of samples of lubricating oils.

Hyatt Cemented Oil
The Hyatt Petroleum Corporation's well in the west of the Huntington Beach field, which was cemented off for water and is now drilling into the oil sand. The drill is down 4300 feet, according to reports from the field. A core taken just before cementing off is reported to have shown a 72-per-cent oil saturation.

Showings Poor

Officials of the Union Oil Company are disappointed in the showings made by Community No. 6 well in the Long Beach field, which is now being completed. The well was started near the Community No. 7, which has been producing 1000 barrels daily since shortly after it came in. The well was expected to equal that performance, but its showings have been poor to date.

Official Report

Oil-field operations reported to Acting State Oil and Gas Supervisor J. B. Case during the week ending the 6th inst., show twenty-four new wells started, as compared with thirty-three during the previous week. The total new wells this year is 1105, as compared with 1075 the same date last year.

Tests for water shut-off this week numbered twenty-eight, compared with forty-three during the previous week. Yearly total to date, 1526; to same date last year, 1329.

Deepening or redrilling jobs this week numbered ten, as compared with twelve during the preceding week. Total to date this year, 473; total to same date last year, 420.

Abandonments this week numbered nine, the same number as during the preceding week. Total to date this year, 223; total to same date last year, 210.

More Wells At Hill

Ramsey-Coffin No. 1 and Cooper Duncan No. 3 are two new completions in the Signal Hill field, the two wells adding 4500 barrels to the daily output.

The Ramsey-Coffin, owned by the W. R. Ramsey interests, came in Tuesday night with a flow estimated by company officials at 3000 barrels. The well is located on Grant street in the southeastern section of the field and was completed at a depth of 5005 feet.

The Cooper Duncan well, located

on Brandon street just west of Atlantic avenue, came in yesterday morning with a flow estimated at 1500 barrels daily production. The yield is said by company officials to be entirely free from water. The Duncan was completed at 4000 feet and is the first well brought in by the Cooper interests.

Water Trouble

The Chandler-Cannell Midway Company's well in the Torrance field near the Superior Oil Company's wells No. 1 and 2, which reported salt water last week, has encountered the same trouble, it was reported yesterday.

The Superior company is making every effort to shut off the salt water flow, which is said to be the chief obstacle to getting production in that part of the field. On these two wells the Superior is down more than 3500 feet. In their Torrance No. 2 well they are down 3600 feet and report a good water shut-off at 3500 feet.

Will Spend In Today

A new well will be spudded in today by a syndicate of members of the Rio Bravo Oil Company, at American avenue and Franklin street in the Long Beach field. It was reported yesterday by L. J. F. Bremner, secretary of the Rio Bravo Oil Company.

The M. K. No. 1 well of the Rio Bravo Oil Company at Pasadena and Spring streets in the Signal Hill field, is down 4100 feet. Mr. Bremner reported. It will be taken down to 4500 feet.

"MISS ME YESTERDAY?"

Or didn't you notice my little daily message was not there?

Well, there was a good reason for it not being there, because I didn't get time to write any thing.

Now that my selling campaign is over, I'm spending most of my time in the field, keeping my finger on the pulse of the situation every moment, and Gee Whiz it feels good to get out again after being cooped up so long.

No doubt you've heard this remark several times: "Where is Julian going to get enough production for his big Refinery?" And that remark to me always is a laugh, because if there is one thing I pride myself on knowing how to do, it's getting production.

I expect to have 25 wells drilling in pretty sure shot territory within the next few weeks, and just depend on me to show the boys how to get production and plenty of it.

So, if I should miss one of my daily reports to you now and then, you can bet your lipstick I'm not loafing on the job any, as results will prove as I bring home the bacon and bring home the jam.

RANCHERS IN STATE GAME LAW CLUTCH

Several Arrests Made in Malibu Country Charging Hunting Out of Season

County Forester Plintham and his deputies, yesterday and Tuesday night descended on ranchers in the Malibu country with a sheaf of search warrants and made several arrests for alleged violation of State game laws.

William Newell, a celebrated character of the region and well-known to thousands of hunters, was arrested and taken before Justice Powell at Sherman, where he pleaded not guilty to four complaints, charging him with killing game contrary to law.

The heads and skins of more than a score of deer were seized at the Newell place, according to Plintham, indicating that he had learned that hunters had been in the practice of going to Newell's ranch, believing themselves to be free there of the interference of game wardens.

An epidemic of lawless deer hunting has sprung up within the last few days, said Mr. Plintham, which he attributes to a wrong interpretation of the celebration of Roeder and the two Cooks, who were freed by Justice Hanby, only to have the case taken to higher courts.

GREETER'S MEET TONIGHT

The Southern California Greeter's Association will meet for its regular monthly meeting this evening at the Stowell Hotel.

The principal speaker will be William Dunlap, who will discuss hotel management. A round-table discussion will follow. A number of out-of-town guests are expected.

AVOID GAS AFTER EATING

Physicians state that the best abdominal treatment for gas is to eat a light meal, avoid fatty foods, and take a walk after eating.

THREE SAILORS KILLED IN BLAST ON SUBMARINE

Seriously Injured as Battery Explodes and Rocks Harbor; Many Heroic Deeds

Three sailors were killed and four seriously injured by an explosion aboard the United States Navy submarine S-37 at Los Angeles Harbor yesterday. The concussion of the explosion was of such force that sailors on the surrounding boats were knocked down.

The explosion occurred at 10:15 a. m. when the submarine was being towed to the pier. The explosion was caused by a battery which had been recharged. The explosion was heard all over the harbor and the concussion was felt by the surrounding boats.

The explosion was a serious one and the sailors who were killed were killed instantly. The four who were seriously injured were taken to the hospital and are now recovering. The explosion was a tragedy and the sailors who were killed were heroes.

HOSPITAL PLAN FURTHERED

Senator Oddie, Chairman of Senate Investigating Body, Supports San Fernando Site for Veterans

Recommendations that the new Veterans' Bureau tuberculosis hospital which the government is planning to build in Southern California be located at San Fernando have been presented to Gen. Hines, director of the Bureau, by Senator Oddie of Nevada, member of the Senate Committee now conducting an investigation of the Washington about the 20th inst. at which time the place where the new hospital is to be located will be definitely decided upon.

Senator Oddie, who came to Los Angeles from San Francisco yesterday and is a guest at the Biltmore, on his arrival went into conference with the Veterans' Bureau officials and the local officials of the Veterans' Bureau in regard to the project, his object being to obtain all the data possible on the proposed site with a view to urging that the hospital be established here.

As a member of the committee on the Veterans' Bureau from the West, Senator Oddie has been delegated to investigate that organization in the Pacific Coast States and he has devoted a large share of his time during the last summer to this work. He has studied hospital conditions in other parts of California and among other things has recently recommended the immediate establishment of a tuberculosis hospital at Livermore. The Veterans' Bureau at that place already owns a site which has the recommendation of the American Legion, Veterans' Bureau officials and other competent authorities.

The need of tuberculosis hospitals for former service men is vital, he declared, "and there has been so much delay in this matter that the situation has become acute. I purpose to see that immediately the establishment of an institution that will be the highest type of its kind to be found anywhere in the country." The Senate Committee on Veterans' Affairs, which, in addition to Senator Oddie, includes Senators Reed of Pennsylvania and Walsh of Massachusetts, will conduct its hearing in Washington.

"I am strongly in favor of the enlargement and improvement of your harbor here on an extensive scale," he said. "This port is increasing in importance daily and it will be only a short time before its present facilities will be entirely inadequate. During the coming session of Congress I shall make it a point to urge its needs before the Senate and I shall see that the steps to be taken as will insure ample government aid in carrying out the plans now under consideration for its improvement."

The raid last Saturday was carried on under the personal direction of Acting Captain Bert Macdonald, head of the vice division of the police department and Dan O'Leary, Federal prohibition agent. The raid was a success and a number of arrests were made by the three score Federal and police officers.

Mr. Campiglia's connection with the police department and his recent trip East and his friendship for several men connected with the Federal prohibition office here are believed to have had something to do with the sending of the "death note." Residents of the Italian colony were angered by the big raid and several threats were heard by the raiding officers, but little attention was paid to the matter until the receipt of the note.

Acting Macdonald, when questioned about the note, refused to give any details other than to state that the detective bureau has been convinced of the Senator's use of the words of Noble Sisti, which he learned that every possible precaution to guard the intended victim's life has been made and that warm reception will await any one attempting to carry out the threats.

FOUR INDICTED IN OIL INQUIRY

Officials of Two Syndicates Named in True Bills

Moore, Turman, Phillips and Sawyer to Face Trial

Firms Accused of Collecting \$1,750,000 by Fraud

The first blow of the government at the alleged crooked oil promoters and salesmen, who, it is charged, have filched millions of dollars from innocent investors in this city and vicinity was struck by the Federal grand jury yesterday when indictments were returned against E. N. Moore and Joe B. Turman, with offices in the I. W. Hellman Building and Ernest S. Phillips and Charles P. Sawyer, operating at 621 South Spring street, in the Mortgage Guaranty Building.

There were no bench warrants issued in any of the cases, and it is understood that the defendants will report today to Commissioner Long, prepared to give bond in the sum of \$15,000 each.

More bills expected. The partial report of the jury yesterday was the beginning of the offensive. Moore and Joe B. Turman, with offices in the I. W. Hellman Building and Ernest S. Phillips and Charles P. Sawyer, operating at 621 South Spring street, in the Mortgage Guaranty Building.

The first indictment returned was against E. N. Moore and Joe B. Turman, backers and organizers of what is known as Joe B. Turman Oil Syndicate No. 2, with a capital stock of \$500,000, divided into 10,000 shares.

FREIGHT-RATE CUT SAVES CITRUS MEN MILLIONS

Lower Tariff to Eastern Points Will be Effective in Thirty Days Through Effort of Cornwell

Approximately \$4,000,000 will be saved to California orange growers annually through a reduction in transcontinental freight rates obtained through the personal efforts of C. O. Cornwell, traffic manager of the California Fruit Growers' Exchange. The lowered rates will be made effective within thirty days, the usual length of time required for such readjustments.

SEA YIELDS BODY; SKULL FRACTURED

Former Organizer for Wobblies May Have Been Hit With Club

The body of John Leiro, a former I. W. W. organizer, was found floating in Los Angeles Harbor yesterday with a fractured skull. Cards in Leiro's pockets indicated, the police say, that he had perished his dues to lapse in the Wobblies organization.

Leiro was 27 years of age and formerly worked as a marine fireman. His last known employment was on the steamer Edna Christensen in September, 1922. Since that time, the police say, he had been living at the Manchester Hotel at Los Angeles Harbor without any visible means of support.

The skull fracture was at the right temple and there were marks near his ear as though he had been struck with a club. He is believed to have been in the water eight or ten days, among the police, according to the police, were I. W. W. membership cards made out to John Doe and to Richard Roe. Leiro was a Finn and has no relatives in this country as far as known.

An inquest into his death will take place today at the Palm & McIn undertaking rooms at the Harbor.

HUGE STRUCTURE PLANNED

Northeast Corner of Hill and Fifth Streets Leased for \$10,000,000 for Thirteen-story Building

Announcement was made yesterday by Glenn N. Duell of the Charles G. Andrews Company of one of the largest real estate transactions in the history of Los Angeles, a deal involving a total investment of more than \$10,000,000 and the improvement of one of the most valuable sites in the downtown business district, the northeast corner of Fifth and Hill streets.

This property, which has for many years been in the hands of the pioneer Spinks family of Los Angeles, has been leased for a ninety-nine-year period at an aggregate rental of \$1,910,000, or \$90,000 per year. This is believed to be the second largest ground rental ever paid in Los Angeles, being exceeded only by the rental paid for the southwest corner of Seventh and Broadway.

The corner was leased by the Spinks family, composed of Dr. M. E. Spinks, Dr. Andrew Spinks, John Spinks and Leon Spinks, sons of Dr. M. E. Spinks, who acquired the property more than thirty years ago.

The syndicate which has acquired the ground lease is composed of a number of well-known local business men, among whom are Fred E. Keeler, Lewellyn Brothers, O. Roy Enle, Charles G. Andrews, G. Y. Ridenbaugh and Glenn N. Duell. The entire project is being financed by local capital, the lease being taken over strictly as an investment. According to

LIQUOR RAID BRINGS THREAT

Hand of Vendetta Seen in Death Letter Sent Cafe Man Who is Blamed for "Little Italy" Seizure

A grim echo of the spectacular liquor raid in "Little Italy" last Saturday was heard in the Federal and police prohibition enforcement circles yesterday when it was learned that one man was marked for death by assassination because he is suspected of instigating the raid.

The condemned man is John B. Campiglia, a well-known restaurant man, one-time leader of the Los Angeles Police and Fire Department band, and one of the prominent Italians of the city. A death note, warning him of the fate that awaited him if he failed to submit to the regional planning commission and the traffic commission on the project.

"Just as the wine was spilled so will your blood be spilled," is one of the sentences in the note, which is dated in November, is the date mentioned in the note.

The note, it was learned from Mr. Campiglia's friends yesterday, was dated the 8th inst. and read in part, as follows:

RELATIVES OF CHEMIST ARE SOUGHT

Doctor Who Drank Poison by Mistake Believed to Own Property in Europe

The estate of Dr. Sergio Bragnara, a chemist who died after accidentally drinking cyanide of potassium in a laboratory at Huntington Park on September 28, last, is now in the hands of Public Administrator Bryson, as the doctor left no will and there are no known relatives in this country.

It is believed that Dr. Bragnara owned considerable property in Spain and France, but of this the public administrator is in ignorance. It was reported that he had relatives in those countries, and word from them is expected.

In the meantime, a foster son is believed to have control of the estate, and has been asked by Mr. Bryson to make a report of the property.

The partial report of the jury yesterday was the beginning of the offensive. Moore and Joe B. Turman, with offices in the I. W. Hellman Building and Ernest S. Phillips and Charles P. Sawyer, operating at 621 South Spring street, in the Mortgage Guaranty Building.

Story Changed by Jolley Girl at Boy's Trial

William Joseph, 15 Years of Age, Went on Trial Yesterday Before Judge Schenk

The girl indicated that she did not tell the complete truth to Judge Schenk. Astrea before, the complaining witness, who testified previously that she was kidnapped, drugged and attacked by four men, was placed on the stand.

Bottled Health
FROM HOT SPRINGS, ARKANSAS

A. Hervey-Bathurst, C. S. B., member of the board of lectureship of the Mother Church, the First Church of Christ, Scientist in Boston, Mass., delivered the last of a series of lectures on Christian Science at Second Church of Christ, Scientist, Los Angeles.

follows: "In the year 1867 Mrs. Eddy made a discovery, which she named 'Christian Science,' which was the result of her instantaneous recovery from the effects of a severe accident which the physicians had declared must terminate fatally. Mrs. Eddy had then always been deep and constant student of the Scriptures, and it was therefore natural that, in her extremity, she should turn to the Bible. It was then she proved, through her own personal realization, to perfect health, that the method of healing taught and demonstrated by Christ Jesus was the natural fulfillment of divine law—a law just as available in this age as it was in 1900, years ago.

**Giant Tanker Vancolite
Making for Port With Its
Motors Crippled**

A noteworthy feat in ocean navigation will be accomplished next Sunday if the giant British tank steamer Vancollite reaches Los Angeles Harbor without assistance. While fighting a southwest gale yesterday in mid-Pacific 1900 miles south of this port, the 15,000-ton vessel wrecked the high-pressure cylinder of her starboard engine, completely disabling one-half her propelling machinery.

Council Passes Contract Allowing Suburb to Join City Outfall System

The Glendale sewer contract passed the City Council yesterday and later in the day was signed by Boyle Workman, the Council's president, as Acting Mayor.

Mildred Constantine, 14 years of age, the complaining witness against F. W. Vanderbogart, who is charged with criminal assault, underwent a severe grilling by the defense attorney at the trial yesterday before Judge Keetch.

Two newspaper men, who interviewed the defendant following his arrest on August 2 last, were also called to the stand. They testified that Vanderbogart demanded the reason for his incarceration and was told the charge.

Boyle Workman, president of the City Council and Acting Mayor, yesterday invited Admiral Moffatt to bring the big Navy airship Shenandoah to Los Angeles. Mr. Workman has telegraphed the "Aeronautical Digest" of New York. Those editor replied:

VALLEY GETS BUSSES

Pacific Electric Opens Service to San Fernando

Pacific Electric bus service was inaugurated yesterday for the entire San Fernando Valley length of Ventura Boulevard, it was announced by the Ventura Boulevard Association, which has been seeking the service for some time.

This service and the passage of the Mulholland Shoshone Reservation and the two most obstacles to quick settlement of the San Fernando Valley," said C. G. Albright, member of the board of directors of the Los Angeles and Land Owner in the district.

"Within five years there will be half a million people along both sides of the San Fernando Valley," he added was the start of a transportation system. The bus line along the crossroads over the San Fernando Hills should develop this district rapidly."

Two buses start the service at 7:30 a. m. and twenty-five passengers per hour. More will be added as needed. The vehicles will enter through Chatsworth Pass and over the San Gabriel Mountains to the San Fernando and San Jose through the high

GIVEN HEAVY FINE FOR LIQUOR SALE TO BOYS

The sale of one pint of bootleg whiskey to two young boys cost E. Palmer, 536 San Julian street, \$1000 when he was brought before Police Judge Sheldon yesterday. An additional fine of \$500 was levied against Palmer on a charge of illegal possession of liquor. Palmer was arrested by Detectives Edwards and Reed of the Crime Rushers, who, previous to the arrest, had taken into custody two 17-year-old boys who had a half pint of whisky in their possession. They persuaded the boys to return to the establishment and purchase an additional pint with the marked money. Palmer was arrested after the sale was completed.

GRAHAM'S LANA OIL BUTTERNILK SOAP

Varicose Veins Are Speedily Reduced and Terrible Eczema Goes Quickly

Strong, Powerful Yet Safe, Surgeons' Prescription Called Moore's Emerald Oil, Has Astonished Physicians.

There is one simple and inexpensive way to reduce dangerous, swollen veins and blemishes, and get them down to normal, and that is to apply Moore's Emerald Oil night and morning. People who have painful, enlarged veins should not neglect them for they sometimes burst and cause much misery and loss of time.

Moore's Emerald Oil besides being so marvelously antiseptic that it at once destroys germs and poi-

sons caused by germs is such a remarkable healing agent that eczema, barbers' itch, salt rheum and other inflammatory skin eruptions go in a few days. Piles are quickly absorbed and even gotties, wens and enlarged glands are dissolved. For years it has been used in hospitals for boils, carbuncles, ulcers, abscesses and open sores, and with the most perfect success. With each original bottle which any pharmacist can supply you, is a folder that gives instructions for use in all of the above distressing complaints. Your druggist will be glad to supply you.—[Advertisement]

"REGISTER AND VOTE" SLOGAN

State League of Women Asks Stamp on Every Letter

Study of National Problems Will be Carried Out

World Court and Child Labor Amendment on Program

BY MYRA NYE

"Register and vote" is the slogan which the California League of Women Voters would like to have stamped on every letter to go through the postoffice between now and the next election, according to Mrs. Arthur C. Wier, chairman of efficiency and government, in her talk yesterday before the members of the league at the luncheon at the Men's City Club. Mrs. Wier stated that a letter had been sent to the Postmaster-General asking for his support in this suggestion. This idea is just one of several to make up a general program for the education of the voters.

Mrs. Wier said that the league planned to study the groups in the community, then compile facts regarding the government, after which an endeavor would be made to get this information to the minds of the voters.

The plan includes study of State taxation; preparation of new civil service law; study of immigration in its relation to interest, and last a study of the Constitution of the United States.

Yesterday's luncheon was given in honor of Miss Marian Delaney, state president of the league, who gave a short talk on its ideals and program. Two definite plans are to be launched by the National League and they are, according to Miss Delaney, the World Court and the child labor amendment, which is to give Congress the power to regulate child labor.

CITIZENSHIP LISTED

She stated that as usual the league would specialize in citizenship.

Dr. Marian Van Walters spoke on the vital necessity of social hygiene and stated that disease could be stopped in better manner if clinics could be used to a greater extent and by the education of the public into a better understanding of young people in adolescence. She especially praised Chief of Police Vollmer as an official

Diet and Health

By Lulu Hunt Peters, M.A.

NORMAL WEIGHT NO. 3

Yesterday, I gave you the table of weight for girls, and today I will give you the table for boys. Now I want to speak a little on under and overweight.

Dr. W. R. Emerson states that he has never seen a child habitually underweight, but on the other hand, he has seen many children who are overweight. It is just as important to have a child's condition watched and his weight reduced as it is for the undernourished child's condition to be watched and his weight increased. For the fat child's resistance to disease is also lowered, and he is especially liable to develop diabetes.

Remember, when making measurements by the tables I am giving you, to remove the child's outdoor clothing, shoes and coat. Take heights with a square (the side and end of any box will do). The child should be placed in a good erect position, with heels and shoulders against the wall or wide board, upon which has been marked an accurate measure. Age is taken to the nearest birthday.

These new Weight-Height-Age Tables, which I have printed for you yesterday and today, are the most accurate available representation of a large group of presumably healthy children most of whom are native born. The tables were prepared by Bird T. Baldwin, Ph.D., and Thomas D. Wood, M.D., and are published by The American Child Health Association of New York City. They are reprinted here with their permission.

Nurse Regains Health After 718 Mile Walk

Walking is the most expensive but the most healthful mode of travel, according to Miss Esther Stires, a trained nurse of Mobile, Alabama, who walked from Mobile to New York in Cantilever Shoes in 42 days. She left home in poor health and with her ankles weakened by having worn fancy shoes with French heels since school days.

Miss Stires arrived yesterday in splendid health and with feet strengthened by her long walk in flexible shank shoes. Lodging, meals and incidentals on the road cost \$210. She said she could have come by Pullman, with meals and tips for less than \$75, but her improved health is worth more than the difference.

She was offered many lifts by motorists along the road and accepted occasionally when she was anxious to make a town before dark. She averaged twenty miles a day and actually covered 718 miles on foot. On arrival here, Miss Stires immediately walked to the Brooklyn Bridge to call at the Cantilever shoe factory at Carlton and Flushing avenues.

These shoes are obtainable at the local Cantilever Shoe Store, 5th Floor, Pantages Theater Building, 7th and Hill Streets.—[Advertisement]

EGGS that Cost 15¢ to 20¢ less

Were it not for modern canning, fruits at this season of the year would be prohibitive.

Were it not for modern REFRIGERATION, Eggs at this season of the year would be beyond the reach of most.

You do not hesitate about using canned fruits. You will not hesitate about using good Storage EGGS when you realize these facts:

They are the choicest EGGS produced in the Spring.

They were laid by grain-fed hens on commercial poultry ranches.

They were twice candled.

They can be used in every way that fresh EGGS are used.

THEY COST FROM 15c TO 20c A DOZEN LESS.

Ask your grocer for "processed" EGGS if you want the better variety of storage EGGS. The shells of these EGGS are sealed by a scientific process that keeps all their goodness in.

California Omelet

4 EGGS, 2 tbsp. cold water, ½ tsp. (level) salt, 1 tbsp. butter or bacon fat. Beat yolks well, add water and part of salt. Beat lightly together. Pour into good sized skillet in which butter is melted. When "set," place stiffly beaten whites, seasoned with salt, on ½ the yellow portion, fold the other half of the yellow over white, and put in moderately hot oven 5 minutes. It will puff up into a delicious beautiful omelet. Serve on hot platter with crisp bacon. Makes 4 generous helpings.

Mrs. Minnie C. Childs,
Tustin, Calif.

Luncheon Dish

Make pastry (not too rich). Line a pie pan, as for pie. Cut ham or fresh pork in small pieces, put in pan. Then put as many EGGS as needed, being very careful not to break yolks. Cover, and bake in a moderate oven. Can make same individual for children's lunch, without meat if you wish.

Mrs. Campbell,
Inglewood, Calif.

Princess Salad

Mix 3 chopped hard boiled EGGS, 1 cup cold cooked diced veal, 1 cup chilled sliced avocados with 1 cup finely shredded cabbage. Add French dressing and place in refrigerator for hour. Mix with mayonnaise and serve on lettuce garnished with olives.

Mrs. Ross Grestey,
Los Angeles.

Keeping Millions Free From Colds and La Grippe

W. H. HILL'S LIFE WORK

Colds cause more illness than any other human ailment. Realizing this 50 years ago, W. H. Hill determined to develop a quick-acting scientifically correct cold and la grippe remedy.

Years of research brought success. Mr. Hill discovered a most remarkable formula. He backed it with energy, faith, integrity and a name that meant "quick action or money back."

Today more than 4,000,000 families—one-fifth of America's population—use and recommend Hill's Cascara Bromide Quinine.

The formula has never been changed in a quarter century. What Hill's has done for millions, it can do for you. Demand red box bearing Mr. Hill's portrait. All drug stores, 30 cents.

PROPERTY SALE CALLED ILLEGAL

Agent Charged With Making Secret Agreement

Cross-Complaints and Long Pleas Are Presented

Creditors in Insolvency Seek to Get Shares

Testimony was taken yesterday in an intricate legal tangle, in which four cross-complaints and 166 pages of pleas are filed, in Judge Thompson's court. The case is a suit by the Law Credit Company against the Merchants' National Bank, J. H. Rambo, vice-president; C. H. and F. C. Stillwell of the Stillwell Hotel and their agent and trustee, J. E. Naregan.

The company bases its plea on the contention that a secret agreement was entered into between Rambo and the bank. The situation arises out of the insolvency of the Ventura California Company in 1917, which at the time owned property valued between \$100,000 and \$150,000 in the Los Angeles petroleum mining district in Ventura county.

AGREEMENT MADE
The creditors of the company made an agreement with Rambo that he might sell it any time within one year for \$100,000, or on receiving the consent of a majority of the creditors, at a price between \$50,000 and \$100,000, or if the property was not disposed of within one year at public auction to the highest bidder. The bank at the time held a claim of \$41,000 against the company.

SECRETARY CHARGED
The plaintiffs charge that the sale was made under a secret agreement which allowed the satisfaction of the claim of the bank to the exclusion of the claims of the other creditors.

The law credit company sued for \$4950, and cross-complaints were filed by Naregan to quiet title, by Clayton E. Dorney, who asked for a judgment of \$7000, and by the executors of the estate of Clara E. Capen, who asked for a judgment of \$9000.

VOLLMER'S CALLER PUT IN HOSPITAL

Visitor Who Wouldn't Wait is Patched Up and Held for Sanity Test

Too great a desire to see Chief of Police Vollmer landed F. S. O'Brien, a window sign salesman, in the Receiving Hospital yesterday.

O'Brien appeared at Chief Vollmer's office and requested permission to speak to him. He was informed by Sergeant Nord that the chief was in conference. Instead of waiting, O'Brien hurried the window partition and crashed through the door leading to Chief Vollmer's office. Sergeant Nord caught up with him at the door and about six husky patrolmen came to his assistance.

O'Brien, kicking, clawing and scratching, was subdued after a fierce melee and taken to the Receiving Hospital to have the bruises he sustained in the fracas attended and for observation. Police believe he is mentally deranged. He told the officers that he had some confidential information for Chief Vollmer regarding the murder of a woman.

Moose Will Put Lodge Plan Up to Davis Today

The matter of building a Moose Home in Los Angeles, where all members of the organization may stay when visiting the Southland, will be discussed with James J. Davis, Secretary of Labor and Dictator-General of the Moose lodge, when he arrives in Los Angeles today.

Secretary Davis will be met at 7:50 a.m. at the Southern Pacific depot by Supervisor W. Ward Davis, Deputy Supreme Dictator Andrew Warrington and a delegation of Los Angeles Moose.

CHECKS DRUG SELLERS

Goodell Finds Many Fail to Report Sales of Narcotics

United States Internal Revenue Collector Goodell has just completed a survey of the number of persons in the local internal revenue district who hold permits to manufacture, dispense and use narcotics, and he finds that 5508 individuals have held such permits. He has also discovered that there are 265 delinquent registrants who have failed to file necessary returns and receive the usual authorization.

As a penalty of \$2000 or a term of imprisonment of five years, or both, may be imposed upon violators of the narcotic laws, Goodell strongly urges those who have not made the necessary accounting of order forms and narcotics do so immediately.

AS ORATOR DEMPSEY ISN'T

But Greatest Pugilist Proves He Also Can Weather Good Natured Verbal Blows at Dinner

As an orator, Jack Dempsey is a great pugilist, and his recognition of this fact, coupled with his kindly, forgiving nature, restrained him from scattering the remains of Bob Weaver all over the music room of the Biltmore Hotel, at a luncheon given yesterday by the Commercial Board in honor of eleven internationally famed athletes. "Round by round," this is the story of the awful conflict:

Mr. Weaver, president of the Southern Pacific Association of the Amateur Athletic Union, was chairman of the day, and he had introduced nine world-renowned athletes who had smilingly bowed to the plaudits of the audience.

"And to my left," said Mr. Weaver, proudly, "is Jack Dempsey, world's heavyweight champion, whom I have the honor," etc., etc. "Speech!" demanded the crowd as Mr. Dempsey, following the introduction, started to take his seat. Like a good soldier he responded and while nobody declared he was a rival of W. J. Bryan as an orator, he did well for himself and the platform.

PRAISES PADDOCK
Then Mr. Weaver introduced Charles W. Paddock, world's champion sprinter, giving his scholastic and athletic history and crowning him with a wreath of oratory that would have made Mark Antony green with envy.

"And I want to say that Mr. Paddock is the only great athlete I know who can make a speech," continued Mr. Weaver. "All the others with whom I am acquainted, when they are called on for a speech, merely get up and stutter."

The chairman was on his feet as he spoke and Mr. Dempsey was seated, but it would easily have been possible for the latter to have risen before Mr. Weaver could have escaped. But he didn't. He merely looked up at Mr. Weaver with a look of interest and comprehension, toward Dempsey. Then suddenly an angelic smile lit up.

WRANGLE OVER PRISONER

Long Beach Officer Wires New York to Free Man to Halt Attorney's Trip East

By a "Times" Staff Correspondent
LONG BEACH, Oct. 10.—Although, according to advices received from Los Angeles this afternoon, a representative of the District Attorney's office intent upon going to New York to bring back H. B. Friedman, wanted in Long Beach on a bogus check charge is now speeding to Sacramento, to get Gov. Richardson's signature on Friedman's requisition papers, the Governor may not sign them. And, in the event that he does, Friedman may not be waiting to be brought back when the District Attorney's representative lands in New York.

These were the developments this afternoon in the fight between the District Attorney's office and the Long Beach police department over the question of whether to bring Friedman back, when Captain of Detectives J. E. Worley telegraphed the New York authorities to release Friedman because the local department is unable to extradite him.

WIRES GOVERNOR
At the same time Worley telegraphed Gov. Richardson that the Security Trust and Savings Bank of this city, alleged victim of Friedman, will not prosecute the case.

This, it is expected, will prevent the District Attorney's representative from obtaining the requisition papers for Friedman. In another telegram Worley advised the police authorities at Richmond, Va., where Friedman is also said to be wanted, that Long Beach will relinquish its claim.

JUVENILE CLINIC ASKS AID

Mental Hygiene Committee Seeks Foothold Here to Study Juvenile Delinquency Problem

Establishment of a clinic in Los Angeles by the National Committee for Mental Hygiene, where the problems of juvenile delinquency may be studied and preventive measures installed to cut down the rate of delinquency, is contemplated in the recent formation by a group of physicians, social workers, public school officials and citizens of the Mental Hygiene Organization of Los Angeles.

This organization, according to Dr. A. J. Rosanoff, neuro-psychiatrist and chairman of the general committee, shortly will enter into a campaign seeking public sympathy and financial support from private and official sources to comply with the requirements of the national committee for the establishment of the clinic.

Persons interested in the study and prevention of juvenile delinquency in Los Angeles following several meetings organized and elected officers, as follows: President, Dr. Miriam Van Waters, referee of the juvenile court; vice-president, W. H. Holland, chief probation officer of Los Angeles county; secretary, Dr. H. G. Brainerd, neuro-psychiatrist, president of the State Medical Society; chairman of the organization committee, Dr. Rosanoff.

SEEKS QUARTERS
Before the national committee will install a clinic in Los Angeles, in which a staff of trained psychiatrists, psychologists, social workers will work for one year at an expenditure of \$30,000, requirements must be met, according to Dr. Rosanoff.

Adequate quarters for the clinic, co-operation of social, school, public, religious and other agencies dealing with the problems of juvenile delinquency. The local committee expects to be ready to take over the work at the end of the year.

"The various agencies interested in mental hygiene are expected to support the plans of the local organization in its efforts to comply with the above requirements," said Dr. Rosanoff.

EARLIER IF POSSIBLE
The clinic can be established within a month if the local com-

MAN FOUND HERE WITH MIND BLANK

Mystery of Disappearance in Denver Cleared When He Is Located

A victim of amnesia, G. B. Metz, 24 years of age, who disappeared from Denver on September 11 last, leaving his will and a note saying he was going on a "dangerous mission," was found here yesterday by his mother, Mrs. G. W. Metz, of New York.

The mother has been seeking her son since his disappearance and her search carried her across the nation. She stated yesterday that she found her son apparently had lost his memory almost completely and that she has placed him with friends in the city, where he is recovering. His condition she attributes to overwork and worry. Metz, whose home is in New York, was the Colorado representative for the Pittsburgh Lamp, Brass and Glass Company, Pittsburgh, Pa. Police of every city in the nation have been seeking him since his disappearance, the case being complicated by the finding of the will and note.

Forty and Eight Men Gather for Legion Sessions

A large delegation from Local Vets No. 47, La Societe des 40 Hommes et 8 Chevaux, will attend the national promenade of this organization, which is to be conducted simultaneously with the national convention of the American Legion and the grand reunion of the Ninety-first Division. The Society of Forty and Eight has chosen as its delegates at the promenade A. W. Smith, Van W. Bishop, H. H. Harris and F. G. (Happy) Wintz. Many of the veterans from Los Angeles who will attend the national Legion convention will make the trip to San Francisco on the Yale or the Harvard. The Yale, which leaves for the Bay City tomorrow, will carry many of the Ninety-first Division men, who will hold their reunion there Saturday and Sunday. The Harvard, leaving Sunday, also will carry many Legionnaires to the convention.

Ousted Pastor Sues Church on Wage Contract

Rev. W. A. Fletcher has filed suit against the First Christian Church of El Monte alleging violation of contract. In the complaint he asserts that he was engaged to act as pastor of the church from October, 1922, to October, 1923. He says his salary was to be \$30 a week and he entered into a contract to that effect.

On June 29, last, he said, he was told that his services were no longer required, although the contract had not expired. He demanded \$320 back salary. The dispute has caused a sensation in El Monte.

In spite of protestations both by the bank officials and Long Beach police officials, the District Attorney's office, instead, it is charged, that Burton Pitts, a deputy District Attorney, should make the trip east. Bank officials thereupon served notice that unless Detective Sergeant Fridley was assigned to the trip the bank would not defray the costs and would not prosecute Friedman if he were brought back, Worley declares.

Worley was notified this afternoon that Pitts is now on his way to Sacramento, armed with requisition papers for the Governor's signature.

Associated with the local committee in the work is Dr. J. H. Williams, neurologist, former director of the California Bureau of Juvenile Research and former editor of the Journal of Delinquency, official state organ of the bureau.

SERIOUS PROBLEM
According to Dr. Williams, statistics show that every month in California more than 200 minors become delinquent. This figure accounts only for those who are recorded by the law, therefore the actual number is more, he said. Juvenile delinquency, according to Dr. Williams, is expressed in antisocial behavior, stealing, persistent truancy, sex offenses and many other ways that will sooner or later increase in seriousness.

"Prevention of juvenile delinquency rather than a cure is the object of the clinic," said Dr. Williams. "In each case the individual case will be treated separately and intelligently by experts. A physical examination of each child whose case is brought to the attention of the clinic will be followed by a study of psychological and psychiatric of the peculiarities of the subject. Mental disease, abnormality, environment and other factors in diagnosing the true condition of the minor will be considered in the clinic."

Exclusive Home IN Beverly Hills FOR SALE

This new artistic home at 707 Camden Drive, Beverly Hills, was built by Mr. Percy Davis. At the features known to the modern builders have been incorporated in this magnificent house. The house is 1725 with four bedrooms and large bath, three bedrooms, two baths with showers, etc., etc. Carved woodwork painted throughout. The grounds are 30x150, equipped with sprinklers, shrubs, flowers, lawn, tennis court, and large double garage with extra room. You can buy this property for \$22,500 (terms to suit). Open for inspection after 10 o'clock.

Put June warmth in your January bathroom. Sunbowl heat takes the shivers out of shaving. Biggest bowl—most heat.

Move in Line With Plea for Speedy Justice

Indictment Sought for Cashier Hold-up Suspect

One of nine different men accused of robbery and other serious crimes will be taken before the grand jury today in order to speed the machinery of justice, following a suggestion made recently by the Criminal Commission.

Commander I. Turley, director of the commission, and Chief Deputy, Fredrick, conferred yesterday and announced the plan was to take at its close, District Attorney's office has given its approval to the plan, which is in serious consideration.

Among the cases is that of Edward J. Dwyer, accused of the robbery of Dave Antik, Sun Drug Company cashier. Dwyer was taken before the grand jury yesterday in Superior Court, but failed to, and the case of \$10,000 on which he had been indicted was declared forfeited. He will be indicted so that the grand jury can be accomplished quickly.

The cases of the other men are of varying degrees of seriousness. Harry Burton and James Kull are accused of holding up four Shell Company stations and robbing the managers, and of engaging in a gun-fight with Police Officer Anderson.

David L. Griffin and Rufe are accused of the robbery of Richard Wagner, a taxi driver. They stole his car, it is asserted, and drove him to Salinas, where they took him to another robbery. Members of the gang were arrested at Salinas by Detective Lieutenants Olin and Cahill.

One of the cases is that of Harry Dwyer, accused of assault with intent to murder Police Officer Deatherage. August 12 last, it is asserted, Dwyer, Detherage and Borgan and the pair at Seventy and San Pedro streets in a act of stealing an automobile. The asserted burglary is charged, opened fire on the officers and Detherage was wounded.

Albert Kennedy is accused of robbery in connection with the recent automobile-stealing case. George St. Jean and Clarence W. are declared by police to be members of the same gang, are accused of burglary.

Office building in Japan destroyed by earthquake.

Japan's terrible earthquake unknown here. The U.S. geologists in the earthquake.

While the probability they are not so remote, slight earthquake, even great damage.

Caution in this regard costs little. For a fraction of insurance you can have earthquake and fire insurance of both quake and fire.

We give our clients a little. We strongly recommend.

WOMEN JOIN EFFORTS TO CATCH MATE

Robbers Then Use Machine in Oil Station Hold-up but Crash Stops Career

What officers assert was a hectic career of crime on the part of C. B. Hammock and S. S. Shaffer, came to a sudden end early yesterday morning when they were captured by Chief of Police Henry and Motorcycle Officer Peterson of Inglewood.

According to Deputies Dewar and Modie, who took charge of the prisoners, the pair confessed to holding up Frank Parros on Mesa Drive, taking his taxicab and then holding up an oil station at 215 E. Redondo Boulevard Tuesday night. They ran into an oil truck later and were severely bruised and lacerated.

It was when both had deserted the taxicab and were limping along the street that Chief Henry and Officer Peterson overtook them and placed them under arrest. Dep. Dist. Atty. McClelland filed charges of robbery against the pair and they are now in the County Jail.

Both prisoners declared that too much moonshine liquor was the cause of their downfall, according to the officers. Parros informed the deputies Tuesday night that the men first engaged him to drive them to San Pedro, but held him up on Mesa Drive, robbed him of \$6 in silver and forced him from the car.

Bessie B. Hunter-Read and Phyllis Meryle Granger

McADOO IS ON TRIP TO SEE WILSON

"Unannounced Candidate" on Visit That Also Will Take Him to New York

William Gibbs McAdoo, unannounced candidate for the Democratic nomination for President, left yesterday for New York and Washington "on business." He will visit New York and Washington during his absence.

His secretary stated yesterday afternoon that Mr. McAdoo had several legal matters to attend to in New York and Washington but as for politics he "couldn't say."

It is understood that Mr. McAdoo, who was accompanied by his wife and two daughters, will spend a short time at the home of former President Wilson, father of Mrs. McAdoo. Mr. McAdoo will be absent at least two weeks, his secretary declared.

Two disillusioned wives, both of whom lay claim to the same husband, pooled their wit and resources a few days ago to bring said husband to justice. They succeeded yesterday morning after a spectacular all-night chase and as a result the husband is in the County Jail on a bigamy charge today.

The asserted bigamist is William A. Reed, 26 years of age, some six feet tall and having all the earmarks of a first-class shiek, according to deputy sheriffs.

The wives who encompassed his arrest are Bessie B. Hunter-Read, 26 years of age, and Phyllis Meryle Granger, 18-year-old Oxnard beauty.

His arrest came after some exceptionally clever work by both women. First they succeeded in making him believe they would both stick by him but when he became suspicious at the last minute they enticed him to their apartment and there "turned him over" to Constable Hayes, who lodged him in jail.

entire chase the maneuvers which preceded the actual arrest the women were directed by Dep. Dist. Atty. McClelland.

SOUGHT TWO WEEKS

The complaint charging Reed with bigamy was issued by Deputy McClelland some two weeks ago. Since that time California authorities have been conducting an intensive search for him. Mrs. Hunter-Read, wife No. 1, led the search.

Principally through her efforts, Reed was finally located at San Francisco with Mrs. Granger-Read. When the police went to arrest him, however, he had gone.

Then Wife No. 1 communicated with Wife No. 2, whom she had located at Oxnard, and the two women became fast friends and decided to work together in the capture of the asserted bigamist.

SEARCH INTENSIFIED

Tuesday night the two women completed their alliance and intimated their search. They were assisted by the District Attorney's office. The arrangement was that the two women keep in constant touch with one another and the District Attorney's and Sheriff's offices.

This they did up to a late hour last night. Then Miss Granger met Reed by accident in front of the Pacific Electric station on Main street. Following out the plan of battle outlined with wife No. 1, she told him that she would stick by him whatever happened.

He apparently was disatisfied, however, according to Miss Granger. "I have a good notion to kill you and kill myself and end it all," she said he told her.

"Why, what's the idea, Billy? I don't want to die just yet. Life seems good to me," she answered.

TRAP IS LAID

Then she proceeded to inform him that Mrs. Hunter-Read would not prosecute him, and attempted to arrange a meeting at which all three would be present. Reed objected, but told Miss Granger to meet him at the end of the Adams street-car line at 1 a.m. in the morning. She promised to be there, and he hurried home.

Miss Granger immediately communicated with Mrs. Hunter-Read and the two went to the detective bureau, being unable to find the Sheriff's office.

TWO WIVES TRAP HUSBAND

Man Accused of Having Too Many Wives is Jailed as Women Combine Forces in Search

Office building in Japan demolished by earthquake. Photo copyright International.

Earthquake Insurance Is Necessary, Inexpensive

Japan's terrible earthquake reminds us that earthquakes are not unknown here. The United States Geological Survey puts Los Angeles in the earthquake zone.

While the probabilities of an earthquake are no doubt remote, they are not so remote as to be ignored by prudent people. A slight earthquake, even when not followed by fire, might do great damage.

Caution in this regard is easy to exercise. Earthquake insurance costs little. For a fraction of what you are now paying for fire insurance you can have this added protection. You should buy earthquake and fire insurance from the same company, for in case of both quake and fire, adjustments will then be more easily made.

We give our clients adequate protection, not too much, not too little. We strongly recommend earthquake insurance.

A call by phone or in person will give you the details. No obligation.

ROBBERY GANG UNDER QUIZ

Many Witnesses Called by Grand Jury to Sift Operations of Wilson Aides; Indictments Expected

A procession of witnesses yesterday went before the Federal grand jury and detailed information which they had been able to gather concerning the operations of a nation-wide band of highwaymen and safe-robbers, headed by Herbert Wilson, ex-minister now serving a life term in San Quentin prison for the murder of Herbert Cox, his one-time pal.

The grand jury investigation will probably result in indictments, said Asst. U. S. Atty.-Gen. David Cahill, in charge of the case which will supersede those returned against Herbert Wilson, his brother, Lou, now at liberty, and Herbert Cox, almost two years ago, in which they were accused of robbing Postal Clerks Grimes and Grimes, and a registered mail valued at more than \$1,000,000 on Alameda street, March 3, 1921.

Wilson and Cox were arrested in 1921, by Deputy Couts and Inspector Grant.

JURY GIVEN MANY NAMES

The names of approximately thirty persons, who are asserted to have aided Wilson, in the disposition of the stolen bonds and securities, gained in the Alameda street mail robbery of November 3, 1921, were given to the grand jury in connection with the case. Indictments asserting violation of several articles of the Federal laws, namely conspiracy to hold up the mails, mail robbery and receiving stolen property will be asked, said Mr. Cahill.

The dealers in the stolen bonds are situated in eastern cities, principally New York and Boston. In addition to \$175,000 in bonds recovered in 1921 in a Detroit rooming-house, lots of \$5000 to \$8000 in bonds have been found by postmaster in several eastern cities. Brokers and business men were named in the testimony, it is believed, in addition to professional fences who are known to have dealings with crooks.

When returned, the indictments will be held secret. It was announced, while warrants will be sent to cities in which the indicted men reside. On their arrest they will be brought to Los Angeles to be tried, this city being the scene of the original crime.

Witnesses before the grand jury yesterday were the clerks, Grimes Alexander, Postal Inspectors Grant, Cella, Webster and Pate, and former Deputy Sheriff Couts. The investigation will be continued tomorrow and a report is not expected before next week.

The confession of Wilson, the substance of which was published exclusively in The Times March 21, last, was read to the grand jury yesterday by Inspector Cella. It is believed, Mr. Cella stated that the confession gave them no new

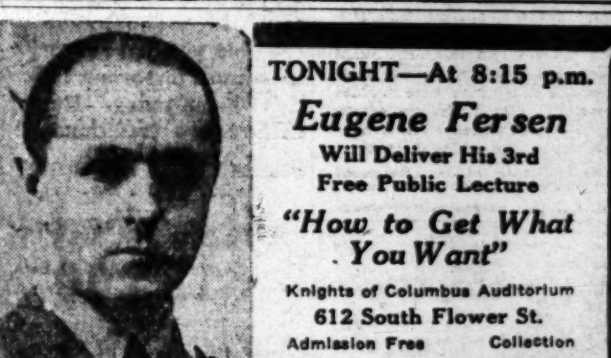

WHO PAYS THE BILL?

By PAINLESS PARKER

Earlier in my career, when I thought every man's hand was against me, I fought with my back to the wall. Like the Irishman at Donnybrook Fair, I took a crack at every head that showed itself. Later in my newspaper articles under the captions "Painless Parker—Outlaw" and "Why I Reformed," I made specific and, what I thought, unanswerable attacks on the Parler and Drawing Room Dentist. You know the kind. Polished in dental college, anointed by the State Board, wrapped in a cloak of professional dignity and set away in a ten-story office building to cool. I was a bit severe with him at times. I did not realize then as I do now that the poor dentist was not to blame, but the Trust that controls him.

But today, when I think of what the individual dentist working alone in this age of specialization and co-operation is up against, I am actually moved to declare myself the attorney for his defense. When I think of the Trust that has placed these burdens upon him, when I think of the way his talents are restricted and his labor wasted, when I think of the suffering public which has to pay the bill, my heart is moved by a different kind of feeling—I want to fight! And this time I am going to fight for the dentist—not against him. I am going to spill a few beans. I am going to employ my thirty years of experience in dentistry to put a dent in the wall behind which the Dental Trust has entrenched itself. I am going to attack not the dentist, but the Dental Machine that is limiting his usefulness; the laws that restrict his activities, the bureaucracy that controls him. I have no axe to grind. I have no grudge to settle. I ask for nothing except your attention. A million satisfied clients have proved that I was right and that the E. R. Parker System of dentistry is founded upon good. It has been tested in the fire of public criticism. Its growth cannot be stopped. It is bigger than I am and will be in existence when I am dead and gone. I am in the ring this time simply because I love to fight for a principle, because I want to help the under-dog, and because I want you, the general public who are my customers, to be able to answer intelligently this question: WHO PAYS THE BILL?

Toothache, Earache, Headache, Gone Forever

Since time began the human race has suffered from pains of all kinds, but at last science has perfected a wonderful formula which brings complete relief in five minutes.

This wonderful formula known as Sed-a-vol is not habit forming, does not depress the heart as do many anti-pain products, and not only stops pain instantly, but brings a feeling of freshness instead of that tired out, run down condition.

Sed-a-vol is absolutely harmless, now being prescribed by thousands of doctors. Stop into your nearest drug store and get a package for a few cents. Take a couple of tablets right there. If it doesn't stop your pain in five minutes, the clerk will refund your money.—Advertisement.

CAN NOW BEND OVER WITHOUT TERRIBLE PAIN

If you are suffering from kidney and bladder trouble, there's no need to go on enduring terrible pain, when you can get relief within a few days by taking Alvita tablets just like J. C. Rousner did, who says:

"As a benefactor of Alvita products, I hereby state that from an almost under the surgeon's knife condition I have been restored to robust health by the use of your products. Obligated to suffer with what one physician called stone in the bladder and another enlarged prostate, both unable to cope with the trouble and suggesting surgery, I have taken only moderate doses of Alvita tablets and using Alvita tea as a beverage, with the result that I have no more thought of the operating table than of climbing the moon. I am an enthusiastic believer in the virtue of Alvita products because of what they have done for me—nothing short of a new lease on life."

Alvita is the recent scientific discovery which brings lime, iron, and phosphates to you in a vegetable form which may be readily assimilated. Alvita is prepared in convenient tablet form from the deep-rooted alfalfa plant which Science discovered is a rich storehouse of vital mineral salts. No matter if you have tried many remedies, try this tonic of nature now. A dollar buys a box of Alvita tablets at any drug store.—Advertisement.

WORLD SERIES BORNE TO FANS

Radioland Whisked Away to
Yankee Stadium

Venice of America Band
Provides Concert

Lucille Holman and Other
Soloists Assist

BY K. G. ORNSTON

Radio conquers time and space. Its magic carpet transports all who would follow, from the Atlantic to the Pacific in the twinkling of an eye. The faithful ear of radio, the microphone, is the ear of continents—thousands, and through its medium Radioland may listen to a ball game in New York in the morning, attend a band concert on the shores of the Pacific in the evening, and later dance to the music of a famous hotel orchestra.

The Aladdin lamps of The Times radio transmitter were red hot for eight solid hours yesterday. In the morning all Radioland was whisked away to a vantage point behind the home plate of the diamond in New York, where the opening game of the world series was played. With breathless interest they followed the fast game, cheering each spectacular play as the outcome wavered in the balance.

VENICE BAND PLAYS
The audience which listened to the Venice of America Band last night would have jammed every street, canal, pier and roof-top in Venice, had they tried to gather about the bandstand there. And radio waved its magic wand, and Radioland listened in comfort, without crowding or jostling, to the band which is so ably directed by Francesco Ferullo.

The program opened with an overture, "Aurora," by Verdi, followed by "Minuet in G," by Beethoven. Perhaps the outstanding number rendered, was the "Suite Atlantica," by Safranek. This suite, made up of four parts, has for its theme the lost continent, Atlantis, mentioned in Plato's history. Atlantis was believed to have been the home of a great race which conquered and civilized the world. The final destruction of the continent is depicted in the last part of the suite.

The band rendered two numbers composed by the director, Francesco Ferullo. "Imitation" and "Pilotena" were enthusiastically received by Radioland.

CANELLI GIVES SOLOS
Pietro Canelli, clarinetist, favored listeners with a solo, "Home, Sweet Home," by Tulliani. His instrument broadcasted well, and the rendition left nothing to be desired.

The vocalist of the evening was Lucille Holman, soprano, who is possessed of that type of voice which is excellently modulated from the radio standpoint, and broadcasted with pleasing clarity and distinctness. Her program included, "The Old Road," by John Prindle Scott; "The Charm of Spring," by Clarke, and "Hayfields and Butterflies," by Teresa del Rio.

Dr. Mary Baumgardt, optometrist and lecturer, gave his weekly talk on astronomical subjects. His

TODAY'S PROGRAM

11 a.m.—World's series baseball returns.

12:30 to 1:15 p.m.—Program presented by Mrs. J. A. Cottrell, soprano, and Mackie's Mokihana Hawaiians, composed of J. Nawai, Dixon McIntyre and D. Lee, playing through the courtesy of the Owl Cafe.

2:30 to 3:20 p.m.—Matinee musical, presenting Mrs. J. A. Cottrell, soprano, and Mackie's Mokihana Hawaiians, playing through the courtesy of the Owl Cafe. Secretary of Labor James J. Davis will speak.

6:45 to 7:30 p.m.—Children's program, presenting Mickey McDan, screen juvenile, who will read "Vacation Accomplishments," by Guest, Georgia Simmons, "Uncle Remus Story," a page from Mother's Picture Book.

8 to 10 p.m.—Program presented by Memorial Baptist Church, arranged by W. Arthur Dalton, presenting the Griffin family, instrumental quartet. Mildred Wetkavich, violinist, Mervin, mixed chorus, Kesch brothers, violinist and flutist, Delbert Brignall, tenor. W. Arthur Dalton, musical director. Rev. Thomas Latham will talk on "The Storm."

10 to 12 p.m.—Broadcasting by line telephony of Art Hickman's Orchestra from Baltimore Hotel. Lawrence Humason, tenor, Aubrey Wakefield, harmonica, and Colgin, jazz tenor, other entertainers.

COURT TO SENTENCE BURGLARS

Men Said to be Members
of Gang Guilty of Many
Crimes

John Belar was found guilty by a jury in Judge Hardy's division of the Superior Court yesterday on a charge of burglary and grand larceny. John Malino, co-defendant with Belar, pleaded guilty just as the case was about to close.

Another of the defendants, Albert Rodriguez, changed his plea to one of guilty during the trial Tuesday. All three will be sentenced today.

The men are said to be members of a gang which participated in eighty hold-ups and thirty-five burglaries here in a short time.

Pacific Coast Merchants to Banquet Here

More than 1000 merchants from all points along the Pacific Coast will gather for a booster banquet this noon at the new Hotel Biltmore. The banquet is being given by the Milton G. Cooper Wholesale Dry Goods Store and a general discussion of merchandising problems will follow it.

Among the speakers will be former Senator Flint, John G. Bullock, H. W. Lawson and Prof. Stonier of the University of Southern California.

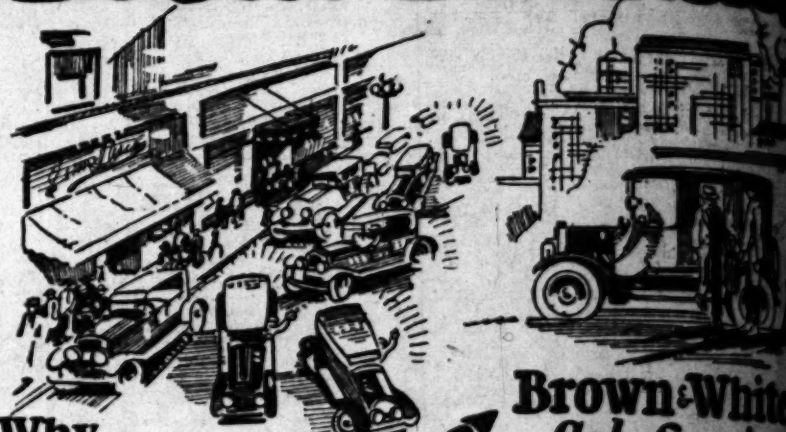

Wife Says Her Husband Failed to Keep Bargain

When Mrs. Ann Doscher married George H. Doscher she promised to be a mother to his three children, all under 5 years of age, if he would be a father to her four children all under 16 years of age, but in her application for a divorce filed in Superior Court yesterday, Mrs. Doscher alleged that her husband did not live up to his bargain.

She asserts that Doscher drove her eldest daughter from home by his actions and remarks. She says that she was a loving mother to his children. Mrs. Doscher said that she had only one good dress and that Doscher, in a fit of anger, tore this to bits.

On another occasion she desired to visit relatives and Doscher broke the show cases in their little store and threw custard pies all over the place, according to Mrs. Doscher. She also alleged that she has been dependent on the charity of friends and relatives for some time as Doscher has contributed nothing to her support.

Don't Worry About Parking

Why
